About the Course

Make fitness-building routines a habit.

This topic is included in the following course(s): PE: Grades 4-6, PE: Grades 7-12

PE: Grades 4-6

Lessons specifically created for Grades 1-6. We recommend you make sure to include some sort of physical activity as breaks throughout your school day. If you already have sports or similar activities as a regular part of your life rhythms, these lessons are optional.

PE: Grades 7-12

Lessons specifically created for Grades 7-12. We do recommend you prioritize the Historical Dance lessons as these are less likely to be obtained elsewhere and also give depth and richness to student's understanding of the time period. We recommend you make sure to include some sort of physical activity as breaks throughout your school day. If you already have sports or similar activities as a regular part of your life rhythms, these lessons are optional.

Placement & Combining Tips

Students may also choose to take a local Pilates or Yoga class.

How To Teach

Overview

Mason emphasized that being physically fit is just as important as being mentally and spiritually fit. She used a combination of Swedish Drill (calisthenic exercises done to music or military-style commands), playground games, sports, dance, free play, and afternoon walks to make sure students had time for vigorous exercise every single day.

Introduce

Teach students the new song, dance, or sport. Tutorials are often provided.

Practice

Play your new game, practice your new dance, sing your new rhyme, etc.!

Term 1

WEEK 1 20m Free Play/ Circuits - Lesson 1

Materials: 303 Tween-approved Exercises + Active Games, a pair of light weights or cans

PREP: Go through the exercises with your student so they know what to do and can use the correct form.

→ NOTE

There is one assigned circuit routine per week. One week will be upper body and the next week will be lower body. The same circuits will be repeated for about 3 weeks. Feel free to do the circuits more than once a week. They can be done every day if you are alternating muscles you are using. Feel free to change up the exercises or add in more. If you have a group you can all do the same exercises together or have stations that everyone goes to and then rotates to the next station. You can also put a cardio exercise in between the station such as jump roping or running in place or jumping on a small trampoline.

→ EXERCISE

Circuit 1: Upper Body Training
