

Lower French

TERM 1 ONLY

Picture Study Extension + Grammar (4th+)

About the Course

Alveary Modern Language Lessons are designed to mirror the way children acquire their first language, using methods like gestures, picture recognition, songs, repeated phrases, and storytelling to create meaningful connections and context. These foundational approaches are seamlessly adapted to teach school-age children a second language.

The lessons are designed to be open-and-go with optional video/audio file support. They do not require any background in the target language for the parent/teacher or students. They only take about 15-20 min a day and can be easily adjusted to meet a variety of grade ranges from 1st to 6th grades.

Placement & Combining Tips

Three lessons each week are shared between Grades 1-6, but students in Grades 4-6 add two additional grammar lessons. This course is on a six-year rotation of lessons, so it is suitable for students who took Lower French last year or students just starting their studies.

How To Teach

Introduction to Picture Study

Students will complete a picture study lesson each week. Students will spend two weeks with the same vocabulary and narration sentences. Each lesson has an accompanying video to follow along with the lesson. In these lessons, students will be focused on beginning the skill of narration in another language within the context of discussing a picture from the assigned picture study book. They will use vocabulary and narration series sentences to help them describe what they see. Narration in another language generally follows this progression:

- Recall - When given the French word, students should be able to identify the given word or phrase by pointing to a picture or making a gesture that demonstrates the word or phrase.
- Recite - When given a prompt students will learn to respond in French. At this stage, students can be asked to say the narration series as they point to the corresponding image. Likewise they will practice saying the French word for a given image or gesture.
- Compose - As understanding grows, students may begin to notice objects in a picture or in the world around them and be able to describe them using French. Beginning French will be broken, often with improper grammar. That is ok. Much in the same way that children learn how to use proper tense and grammatical structure in speaking their first language, they will develop that here too, but at this stage it should be a byproduct of their learning, rather than the primary focus.

NOTE: While using these lessons and tools, keep the end goal in mind. Students should be working toward using the language to describe pictures in books and the world around them.

Extension Days (4+)

In grades 4-6, students are given the option of an additional extension day for picture study lessons. On these extension days, students will review the picture study lessons from the previous day. Students will also receive a gentle introduction to new grammar concepts every other week. Each lesson has an accompanying video to follow along.

Flow of a Lesson

Below is what you can expect for the general flow of a lesson:

- Read/watch any preparatory material and look over any student notebook pages or resources that will be used in the lesson.
- Review the order of the lesson, and pull up any links that will be used in the lesson.
- Practice the Phrase of the Week.
- Ask students what they recall from the previous lesson.
- Play the video/audio links provided using the QR code or links page.
- Introduce and practice new vocabulary using TPR (Total Physical Response - using gestures and pointing) and picture recognition.
- Introduce and practice narration sentences, pointing to corresponding images.

Student Notebook

For picture study lessons, students can find a Vocabulary Glossary in the reference section of their Student Notebook to follow along as new words are being introduced and for review.
