

Poetry Reading

About the Course

Students continue to develop their relationship with words through ongoing exposure to a variety of poetic forms, poet biographies, and 19th century poems.

This topic is included in the following course(s): Poetry: Grade 8

Placement & Combining Tips

Students in Grades 5-8 can easily be combined for these lessons as all grades use nearly the same texts this year, although Grades 7-8 read additional selections and have corresponding composition assignments. Poetry lessons are also an integral part of the whole Literature program, so look at both literature and poetry selections together when placing students. Students in Grades 9+ new to poetry should begin here.

How To Teach

Introduce

Tell something about the poet or the kind of poem or fable to prepare students. Remember that poems are like paintings—they not only convey ideas, they create an experience with the sound of words, the way the words are arranged, and the emotions, thoughts, and images they evoke.

Read

Read the poem aloud in order to hear the sounds and meter. Have students read it aloud as well as it is helpful to hear poetry read by different voices. Try to read paying attention to the punctuation as well as the line breaks to get the sense of the poem.

Discuss

Allow students to share any thoughts or connections. What are your impressions of the poem? Talk about anything that stood out to you: the images, ideas, words, phrases, sounds, or even physical look of the poem. What kinds of things is the poem about?

Reread

Read (or have the student read) the poem again.

Connect

Students may choose to add poems to their Commonplace Book or mark them to copy later.

Term 1

WEEK 1 5m Poetry Reading: Grade 8 - Lesson 1

Materials: Over the River and Through the Wood

→ NOTE

You will usually spend one week reading the poems from ~5 pages (depending on the size of the illustrations and length of poems). You can pick 1-3 to read each day and reread them as much as you like. Poetry is made to be read many times. Lessons give some ideas for discussing a particular poem, but those are only suggestions. You'll also focus particularly on getting to know the poets Rabindranath Tagore in Term 1, Pauline Johnson in Term 2, and Paul Laurence Dunbar in Term 3. Feel free to use the index of the book to look up other poems by poets you particularly like.

→ INTRO

Almost all the poems we'll read this year were written from 1800-1900 AD (the time period you'll learn about in many of your other lessons as well). So, as you read, imagine children like you listening to these same poems about 200 years ago! First, let's start by reading a poem that reminds us to enjoy (and not overthink) the poems we'll read this year.

∞ Link: Introduction To Poetry

→ READ & DISCUSS

p.31-36 Chapter: Growing Things

Pick and choose poems from these pages over the week.

(Read one time, discuss, and then reread the poems.)

★ TEACHER NOTE

Optional: Read the Introduction and share information with students throughout the year.

Note: The "Holidays" chapter of Over the River and Through the Wood is not scheduled until Term 3. Feel free to also read from that chapter during Thanksgiving, Christmas, New Year's, etc.

WEEK 1 5m Poetry Reading: Grade 8 - Lesson 2

Materials: Over the River and Through the Wood

→ INTRO

Our poem today is by Paul Laurence Dunbar. He was one of the first Black Americans to earn a living as a writer, and he inspired many other writers after him. He also became friends with Orville Wright and his brother Wilbur (who you may remember as the inventors of the airplane)! The Wright brothers owned a printing press and published Dunbar's first writings.

→ READ & DISCUSS

p.36 "The Seedling" by Paul Laurence Dunbar

- Do you notice how the seedling starts talking in the poem? Have you ever heard a seedling talk? Of course not! Poets sometimes imagine that things like plants or animals can talk to help us think about them in new ways. The fancy word for this is "personification." Do you notice any other examples of the seed doing things only people normally do?
- Keep your eyes open for other poems this week that use personification. What human traits do they give the trees or seeds? Look for examples in "Tree Feelings" by Charlotte Perkins Gilman on p.31.

→ NOTE

You'll read an interesting biography about Paul Laurence Dunbar in Term 3 that includes several more of his poems.

Rabindranath Tagore was born in 1861 in Calcutta, India, and grew up in a family that loved art, music, and ideas. He was a poet, short-story writer, composer, playwright, and painter who spent his life creating in many different ways. In 1913, he became the first non-European writer to be awarded the Nobel Prize for Literature. He also composed the national anthems for both India and Bangladesh, making his words a lasting part of two nations. Once a week this term, we'll read poems by Rabindranath Tagore, exploring themes like mothers, children, and nature.

WEEK 2 5m Poetry Reading: Grade 8 - Lesson 5

Materials: Over the River and Through the Wood

Our poet today is Ina Coolbrith. She was born Josephine Smith. Her uncle Joseph Smith was the founder of the Mormon church, and her father (who died when she was just a few months old) was a church leader, though she concealed this most of her life. Her ties to the church were severed in childhood when her mother remarried a non-Mormon, and they moved to California to follow the gold rush. She published her first poems as a teenager and worked for over two decades as a librarian, encouraging the writing careers of others. She became California's first Poet Laureate in 1915.

→ READ & DISCUSS

p.50 "In Blossom Time" by Ina Coolbrith

- "In Blossom Time" is written in quatrain, meaning each verse contains exactly four lines. Sometimes a whole poem is written in quatrain, as in this poem, and sometimes just part of the poem uses this structure. Quatrains usually have a specific rhyme structure. In this poem, the structure is ABCB, meaning that the words ending the second and fourth lines rhyme (B), but the first (A) and third (C) lines do not. Quatrains can have other rhyme structures, such as AABB or ABBA.

p.46 "The Mushroom's Soliloquy" by Hannah Flagg Gould

- What is the rhyme scheme of "The Mushroom's Soliloquy"? Note that a soliloquy is when a character speaks their private thoughts or feelings out loud without anyone else around to hear them. What are some of the mushroom's thoughts?

Materials: Over the River and Through the Wood

→ READ & DISCUSS

p.45 "The Johnny Cake" Author Unknown

- "The Johnny Cake" has three lines per stanza, which is called a tercet. The pace of a tercet is often slower than a couplet or quatrain. What is the rhyme scheme?

p.44 "To Make A Prairie" by Emily Dickinson

- Notice "To Make A Prairie" is both very brief and uses an unconventional AAABB rhyme structure. Why might Dickinson have chosen this for her subject? Note that reverie means to daydream or be lost in imagination.

★ TEACHER NOTE

"The Johnny Cake" rhyme scheme is ABB.

WEEK 2 5m Poetry Reading: Grade 8 - Lesson 8

Materials: Crescent Moon

→ READ & DISCUSS

p.12-13 "Sleep-Stealer"

- Do you think someone really stole the baby's sleep?
- What phrase is repeated throughout the poem? Why do you think this is?

- The poem in our book leaves out some lines. The verse ends like this:

These demanding to have them, (tired with ceaseless excitement,
and rack'd by the war-strife,)

These to procure incessantly asking, rising in cries from my heart,
While yet incessantly asking still I adhere to my city,
Day upon day and year upon year O city, walking your streets,
Where you hold me enchain'd a certain time refusing to give me
up,

Yet giving to make me glutted, enrich'd of soul, you give me
forever faces;

(O I see what I sought to escape, confronting, reversing my cries,
I see my own soul trampling down what it ask'd for.)

You may already recognize Louisa May Alcott as the author of *Little Women*, but she is also recognized as a poet. Growing up in Concord, Massachusetts, her family was neighbors and friends with writers and poets Ralph Waldo Emerson, Henry David Thoreau, and Henry Wadsworth Longfellow, all of whom influenced her love of writing from an early age. She wrote novels, short stories, and poetry that often drew on her own life and the social causes she cared about, including abolition and women's rights. Her poetry also often reflected the Transcendentalist love of nature, finding meaning and beauty in the natural world.

This poem uses an ABCB rhyme scheme in the first 8 lines, but then changes to an AABCCB scheme in the refrain (the last 6 lines). This creates a "bouncing" effect much like bees bouncing from flower to flower. The poem almost sounds like a song or hymn when read aloud.

- What is the lesson the Lady-Bug learns? The poem ends without telling us what happens to the Lady-Bug when winter arrives. Why do you think the poet left this part out?
- This poem was written for children in 1836. Do you think its message still applies today? Can you think of modern examples that reflect the same ideas?

Emily Dickinson spent almost her whole life in Amherst, Massachusetts, rarely leaving her family home. She was a serious gardener who grew all kinds of flowers and plants, and you can see her love of nature throughout her poems, which are full of flowers, bees, and changing seasons that she observed right in her own backyard. Even though she only published a small handful of poems while she was alive, she secretly wrote nearly 1,800 of them, and most weren't discovered until after she died in 1886. Today, she's considered one of the greatest American poets. Imagine her going back and forth between her garden and her writing desk, getting inspired by everything she saw growing around her.

→ READ & DISCUSS

p.125 "In the Garden" by Emily Dickinson

- The poem is titled "In the Garden," yet the garden itself is never really described. Why might Dickinson have chosen that title?
- In the third stanza, Dickinson uses an em dash—some consider this her signature style! The dashes in her poems create pauses and make the reader slow down. These em dashes are often left out of her poems when they are reprinted. (Unfortunately, they were left out of many of her poems in this book.) Note that many people today consider the use of em dashes a sign that something was written by AI (such as ChatGPT)!

Ella Wheeler Wilcox grew up on a farm in Wisconsin, started writing poetry around age eight, and was widely published in magazines by the time she was a teen! Ralph Waldo Emerson was a Boston-born writer, poet, and philosopher who became one of the most influential thinkers in American history. He was unusually curious about Eastern cultures for his time, and he wove ideas from Hindu, Persian, and Chinese texts into his writing. He had some of the cultural blind spots common to people of his era, but he genuinely broadened the horizons of American readers by introducing them to ideas and traditions from around the world.

Eugene Field was an American poet, journalist, and humorist who built a remarkable career working his way through newspapers across the Midwest, eventually becoming one of the most widely read columnists in the United States. Known as "The Children's Poet," he wrote more than a dozen volumes of poetry and created some of the most beloved children's poems in American literature. His writing was deeply personal, drawing on memories of his New England childhood, his marriage, and the joys of raising a large family. He claimed to be terrible with money and had all his earnings sent directly to his wife to manage.

→ READ & DISCUSS

p.181 "The Duel" by Eugene Field

- This poem has an unreliable narrator. This means that the person telling the story can't be trusted. In this case, the poet tells you at the end of each stanza that he got his information from a Chinese plate and an old Dutch clock! He also keeps reminding you not to doubt him (which has the opposite effect), and the improbable ending is delivered with total confidence and zero evidence! It's almost as if the poet is winking at us and letting us in on the joke.
- If time allows, read the poem a second time, looking for these signs (and more) of an unreliable narrator.

Emily Pauline Johnson was born to a Mohawk chief and an English mother, growing up on the Six Nations Reserve in Ontario. She was educated at home, where she was immersed in both English literary traditions and Mohawk oral storytelling and developed a love for poetry. At a time when Indigenous peoples regularly faced discrimination, she was raised to value her dual heritage. She turned to writing and performing after her father's death to help support her family, traveling across Canada for 17 years. The first half of each of her shows was performed in Indigenous dress and the second half in an English gown, embodying the two cultures that made her who she was. She published her work under both "E. Pauline Johnson" and her Mohawk name, "Tekahionwake."

Henry Wadsworth Longfellow was born in Portland, Maine, in 1807 and published his first poem at just 13 years old. After college, he became a professor at Harvard and could speak eight languages, which helped make his poetry rich with ideas and stories from around the world. He became the most popular American poet of his time, writing famous works like "Paul Revere's Ride" and "The Song of Hiawatha." Some of his phrases (like "ships that pass in the night") became so well known that people still use them today without even knowing Longfellow wrote them. He faced heartbreak in his life, including the loss of two wives, but he kept writing through it all and remained one of the most loved poets in the world until his death in 1882.

Erny grew up to be a painter. Charley ran away to be a soldier in the Civil War and later became a world traveler.

Words which repeat the same sounds (called alliteration) help create rhythm in poetry and writing (and marketing!). Alliteration is the repetition of consonant sounds, particularly at the beginnings of words. While it is common in poetry, you can find alliteration everywhere. Walt Whitman grew up in Brooklyn, New York, left school at 11 to go to work, and went on to become one of the most important poets in American history. He self-published his famous poetry collection *Leaves of Grass* in 1855, which broke all the rules with its bold, free-flowing style, and he kept revising it for the rest of his life. During the Civil War, he volunteered as a nurse caring for wounded soldiers, and the experience inspired some of his most powerful poems. Harriet McEwen Kimball was a poet and hymn writer from Portsmouth, New Hampshire. She was known in her day as "The Poetess of the Church." She was home educated by her mother, who was described as cultured and accomplished. She started writing poetry at a young age with her parents' encouragement and went on to publish several collections of deeply religious poetry and hymns that ended up in church songbooks all across the country. She was part of the same circle of poets as Henry Wadsworth Longfellow, was a personal friend of John Greenleaf Whittier, and was also a generous philanthropist.

John Greenleaf Whittier grew up on a farm in Massachusetts in the early 1800s, where his love of reading sparked a passion for writing poetry. His sister secretly sent one of his poems to a newspaper, which kicked off his whole career. Whittier became one of the loudest voices against slavery in America, even when it was dangerous to do so. He helped found the American Anti-Slavery Society and signed the Anti-Slavery Declaration of 1833. After slavery was abolished, he wrote cozy, heartfelt poems about New England life and became one of the most beloved poets in the country.

Paul Laurence Dunbar was one of the first Black Americans to earn a living as a writer, and he inspired many other literary giants who would come after him. In fact, "I know why the caged bird sings" (one of the most iconic lines in African American literature and the title of Maya Angelou's autobiography) comes from one of Dunbar's poems. He was the only Black student in his high school, and became friends with Orville Wright and his brother Wilbur (who you may remember as the inventors of the airplane). The Wright brothers owned a printing press and published Dunbar's first writings. While Dunbar only lived to age 33, he has been described as "your favorite poet's favorite poet" due to the impact his large body of work had on future writers. Older students may want to read more about Dunbar in the Extra Helping.

Clement Clarke Moore was born in 1779 in New York City and became a college professor of ancient languages. On Christmas Eve 1822, he reportedly wrote a fun poem just to entertain his kids. That poem, "Account Of A Visit From St. Nicholas," was the first to give Santa's reindeer their names and went on to become one of the most beloved Christmas poems ever. It was published anonymously in a New York newspaper in 1823, and Moore didn't claim authorship until 1844. However, the family of another writer, Henry Livingston Jr., argued that he was the real author! Computer analysis in the early 2000s even suggested the poem had more in common with Livingston's known writing style than Moore's. So, the mystery of who really wrote "'Twas the Night Before Christmas" may never be fully solved!

We learned about Henry Wadsworth Longfellow earlier this year, and today we will read his poem "Christmas Bells." This popular poem was set to music pretty early on and has been recorded many times over the years. Listen to the version below if time allows.
∞ (Optional) Video Link: I Heard the Bells

Longfellow wrote this poem in 1863 at one of the lowest points of his life. His wife had recently died in a tragic accident, and his son had just been wounded fighting in the Civil War. When he heard church bells ringing on Christmas morning, he was struck by the contrast between their message of peace and the suffering around him. That tension became his poem "Christmas Bells."

When the poem was set to music in 1872, the stanzas referencing the Civil War were removed, and the title changed to "I Heard The Bells On Christmas Day." Today, millions of people sing the carol every holiday season.

James Russell Lowell was born in 1819 in Cambridge, Massachusetts. He graduated from Harvard but was banned from the graduation ceremonies for breaking the rules! During his suspension, he stayed with a reverend in Concord, where he met poets Ralph Waldo Emerson and Henry David Thoreau, though his relationship with Thoreau would later sour. He skipped a career in law to pursue writing instead. His wife, Maria, strongly opposed slavery and pushed him toward more active involvement in the abolitionist cause. The couple gave their own money to help people escaping enslavement, even when times were tough financially. In 1849, he contributed toward purchasing a slave's freedom, writing, "if my poems were more popular, my gifts should be larger." Lowell also joined the Boston Vigilance Committee, a group that provided shelter, clothing, money, and safe passage to slaves seeking freedom on the Underground Railroad. Lowell became the first editor of the Atlantic Monthly and even served as U.S. Ambassador to Spain and Great Britain.

In the last lesson, we read about poet James Russell Lowell. Later in life, Lowell succeeded his friend and fellow poet Henry Wadsworth Longfellow as Professor of Modern Languages at Harvard University. Today, we'll read one of Longfellow's most famous poems, titled "Paul Revere's Ride," about this famous event during the American Revolutionary War. Though "Paul Revere's Ride" is on the surface about a Revolutionary War event, it was written on the cusp of the Civil War. The poem was meant as a call to arms, rousing northerners to action as war loomed.

Oliver Wendell Holmes was born in Cambridge, Massachusetts. He became a professor of anatomy at Harvard Medical School and was eventually made its dean, a position he held until 1882. He was also one of the "Fireside Poets," beloved for writing poetry that families could enjoy together. His most famous poem, "Old Ironsides," helped save the historic warship USS Constitution from being scrapped by the Navy. His son was Oliver Wendell Holmes Jr., who became an Associate Justice of the Supreme Court of the United States. Holmes Jr. graduated from Harvard in 1861, right as the Civil War was breaking out, and enlisted in the Union Army. He was wounded three times, and his father wrote a famous essay about frantically searching for his son after the Battle of Antietam.
