Read the OT chronologically and study NT epistles. Grade 12 also studies Psalms. Students use commentaries/guides to understand cultural, historical, and theological contexts. Students also read books on particular topics to help them grow spiritually and study Church History connected to the time period.

About Church History: Grades 10-12

Using a survey of key events in the American church, articles, and extra resources on Christianity across the world in the lesson plans, this course gives students a personal and big picture look at church history during the 19th century. A second text is used to bring the people and events of the early church to life.

About New Testament: Grade 12

Each year in high school, students read one of the gospels along with several other New Testament epistles. For 2026-2027, they read the gospel of Luke along with Romans, Ephesians, Hebrews, and Revelation. Using their study Bibles and other resources, students encounter scripture and seek to understand the cultural, historical, and theological context of their readings in order to more deeply appreciate the richness of the Bible and the humility needed in order to live out God's word today.

About Spiritual Formation: Grade 12

Spiritual formation courses cover particular topics in the Christian life to encourage and deepen students' faith. This course helps students use their imaginations to be changed by God, reflect on what it means to be an embodied soul made in God's image, and deepen their delight in God.

Placement & Combining Tips

New Testament: Grade 12

Lessons in one of the gospels are shared across HS grades. Some epistles studied in Grade 12 are more challenging than those in younger grades, but lessons can be combined if desired. Students new to reading the Bible for themselves or unused to commentaries or study notes may find the lessons in Grades 7-8 a gentler introduction to these study practices.

Spiritual Formation: Grade 12

Appropriate for interested students in Grades 10-11.

Bible: Grade 12

How To Approach

Recap

Take a moment to recall what you read previously in the same book or topic.

Read

Read the passage assigned or read for the number of minutes allocated. If a book is challenging for you, try stopping to narrate to yourself silently now and then to make sure you are tracking. Or you could listen to an audiobook version of the text and read along. You may also want to read aloud to yourself. If a book is an easy read, enjoy the ride! Keep an eye out for quotes to put in your Commonplace Book or events or characters to put down in your Book of Centuries.

Narrate

Process and integrate your reading by narrating either orally or in writing. Some lesson plans will give you a suggestion of how best to narrate. You might want to set a timer to keep yourself on track, so you stop reading with enough time to narrate.

Connect

Read notes in your Study Bible or commentary. Look up places mentioned in the text in your Bible atlas. Add something to your Book of Centuries or Commonplace Book. Jot down additional reflections and thoughts in your Bible notebook or share with others.

Teacher Note

Read over the lesson plans to familiarize yourself with the content for accountability and interest. If doing the lessons together, use a picture, a map, or an engaging question to rouse students' interest before reading. You may also highlight one or two unfamiliar terms if needed. If in a classroom context, you may choose to leave larger doctrinal conversations for students to have with their parents at home.

Term 1

WEEK 1 30m Old Testament: Grades 7-12 - Lesson 1

Materials: Old Testament Today, notebook

→ INTRO (FOR GRADES 7-12)

This year you will be reading 2 Samuel, 1 Kings, 1 & 2 Chronicles, selections of Psalms, Proverbs and Ecclesiastes. You will be reading the passages chronologically or in the order of the events. "The goal of studying the Bible chronologically is not to replace the time-honored canonical arrangement, but instead to honor time as a setting in which the biblical record appeared. Readers who study the Bible this way will return to their traditional Bibles better equipped to read them. Acquiring a sense of the flow of the Bible's story will put flesh and blood on its message" (from Chronological Guide to the Bible).

1. Your ESV Concise Study Bible (Grades 7-8) or Cultural Backgrounds Study Bible (Grade 9-12) will have maps, articles, and notes to help you along the way. If you have a question about a specific verse, see if there is a note about that verse below the text.
2. Use your Student Bible Atlas or atlas in your Bible to locate places as needed.
3. We will also utilize Old Testament Today and the Bible Project website as a handbook for helping us understand the background information we need in order to be informed readers.

→ VIEW

1. Throughout the year, you will watch short videos of Dr. John Walton, the co-author of OT Today. The videos were created specifically for Alveary students. We hope they help you understand the Bible better.
 2. You will be reading selections from the Psalms throughout the year. Watch this video to learn more about the Psalms.
- ∞ Video Link: Overview of the Psalms

→ PRINT

You may want to print out the summary of the book to reference as you read selections from Psalms.

∞ Image Link: Psalms Overview Poster

→ READ, NARRATE & RESPOND

Psalms 79-82

- The psalms are difficult to tie to a specific historical context. They are the worship songs of Israel and are intended to apply to the needs of all worshippers across time. Some psalms do have historical superscriptions that make it possible to associate them with specific events, but these make up only about 10% of all the psalms. Another criterion is to place the psalms ascribed to David (or Solomon or Moses) during the life of that person. A second criterion is to place psalms according to their type (from Chronological Guide to the Bible)

WEEK 1 30m New Testament: Grade 12 - Lesson 1

Materials: Cultural Backgrounds Study Bible, Luke for Everyone, Introducing the NT

→ INTRO

Each year, we read one of the Gospels along with our study of the rest of the New Testament books. This year, we will be reading Luke along with Romans, Ephesians, Hebrews, and Revelation. It is helpful to be continually reminded of who Jesus is and how he interacted with people. The Gospel accounts (and all the rest!) were designed to be read many times. There will be insights gained that you would only pick up after multiple readings and by paying attention to repeated words and themes.

We will make use of the Cultural Backgrounds Study Bible notes and maps, Introducing the New Testament (selections), a Luke commentary (selections), and some Bible Project videos to help us understand what Luke and the other authors are saying to their audiences. Then we can think about what new thoughts about God we gain in the process. You do not need to read all the study notes for all the verses. Pick and choose based on which verses you have questions about. Use a digital or physical notebook to record your thoughts as you work your way through the readings.

→ VIEW & NARRATE

Today and over the next few weeks, we will set the stage for reading Luke and the other books by gaining some context. Narrate silently in your head or by talking to yourself to go over the main points. Write down a few of them in your journal. If you followed the Alveary 11th-grade plans last year, you may be familiar with this video. The review will be helpful as you will notice new things this time through.

→ MAP WORK

When places are named in the text, refer to a map in the study Bible. Finding the places on the map is very helpful for seeing the stories in the context of the land. Sketching your own maps of journeys or regions can be helpful too.

WEEK 1 30m Spiritual Formation: Grade 12 - Lesson 1

Introduction

Materials: Becoming by Beholding

→ INTRO

How would you define Imagination? What role do you think it plays in your spiritual formation or growth? What do you think the title of the book means or is referring to? You may find it helpful to annotate while you read. Sometimes, for a first reading, it can be helpful to wait to read the footnotes until you finish reading the assigned pages. Then go back and read the footnote for sentences in the reading that interested you at a later time.

→ READ

Introduction

→ NARRATE

Capture the main points of the Introduction in writing. What is the plan of the book? Make a list of 5-7 things you behold regularly. Write one word for what each one might be forming in you.

→ DISCUSS (IN A GROUP, WITH YOUR TEACHER, OR IN WRITING ON YOUR OWN IF YOU HAVE TIME)

Discuss the quote from page x, "Looking through the eyes of Christians from the past is like trying on spectacles that remedy our myopic fixation on the present and give us a more vivid view of the fullness of the gospel." How does this work? Why are we fixated on the present?

★ TEACHER NOTE

Add 15 minutes to these lessons to have a class or teacher/student discussion or for the student to write independently. Discussion questions are included in the lessons.

WEEK 2 30m Old Testament: Grades 7-12 - Lesson 3

→ RECAP

What do you recall about your reading in the Psalms and I Chronicles last time?

Talk over to yourself what you just read. Then, respond to what you read by putting down a few of your thoughts or questions. Just as in nature study, when we ask questions such as, "What do I notice? What do I wonder? What does this remind me of?" we can ask the same questions about what we read.

→ READ

→ READ

Introducing the New Testament

Ch.1 p.31-32 "Social Systems" - "more than they needed."

Write a paragraph summarizing the mindset of the NT world towards wealth and poverty.

★ NOTE

Instead of reading Luke for some of the lessons, consider watching and listening to Luke via the LUMO Project, which only uses the actual text of Luke but has people acting while it is read. There are many versions and many languages available. You might consider this resource for your modern language studies, too. However, be sure to ask yourself, "What did the film add visually that the Gospel text itself did not explicitly say?" as any visualization project requires interpretive decisions to be made.
