About the Course

Complete Algebra 2 course with video lessons taught by a veteran teacher that thoroughly reviews and solidifies Algebra 1 skills while presenting new Algebra 2 concepts in a step-by-step, easy-to-digest format. Additionally, this course equips students with the strategies and study habits needed to thrive in future math courses. It covers all the topics required for standardized tests (including the SAT and ACT). It also provides students with a strong Algebra 2 foundation, preparing them for future classes such as Trigonometry, Pre-Calculus, College Algebra, Statistics, or Consumer Math, while also helping to develop confidence and reduce math anxiety. A success version is also offered for those students with learning differences that make math challenging.
