

Shakespeare

About the Course

As foundational and influential English texts, students read three Shakespeare plays per year - usually a tragedy, a comedy, and a history (occasionally also connected to the historical time period). This year's plays are *The Tempest*, *Henry IV Part 2*, and *The Winter's Tale*.

Shakespeare: Grades 5-8

William Shakespeare (1564-1616) is perhaps the greatest writer in the English language. Reading and speaking his beautiful words will delight students as they learn his timeless stories, meet a variety of characters, enrich their minds, and instruct their consciences. Students will begin by simply enjoying the plays and later by writing short compositions, comparisons, and commonplace entries. Shakespeare covers the wide panorama of human experience through his nearly 40 plays; the comedies, tragedies, and histories that students read will spark their imaginations with stories that transcend time and culture.

Placement & Combining Tips

Most Shakespeare lessons are shared with Grades 5-12. Students new to Shakespeare may choose to start with the Shakespeare Beginner Track lessons for two terms to ease into the plays.

Shakespeare: Grades 5-8

- ☐ You may want to read "Shakespeare and a Christian Worldview," which is Ch.9 in the book *Echoes of Eden – Reflections on Christianity, Literature, and the Arts* by Jerram Barrs. This is an excellent overview of why Shakespeare is important for everyone to know, including Christians.
- ☐ If your students are new to Shakespeare, read the tips for beginners (Found in Appendix link)
- ☐ You may want to read a retelling beforehand so you are familiar with the play. (Suggestions found in Extra Helpings)
- ☐ Read the discussion questions and skim the summaries of each scene each week before the reading to help guide emphasis and discussion with your students.
- ☐ Consider purchasing puppets to use while reading to keep track of all the characters.

NOTE on VERSIONS

Students should have an unabridged copy that is not in a modern language edition, such as the ones linked in the program. The language complexity gets easier to understand with practice. (Note: Shakespeare's work does often contain bawdy jokes or off-color content that will go over the heads of students if left in its original form; a modern language version will lay it all right out there in plain, modern English.) We like the Folger editions because they are inexpensive, the lines are numbered (making it easy to find your place), and they contain good notes. These are available on the Folger website as free PDFs as well, though the notes are omitted.

NOTE on CONTENT

Teachers are sometimes wary of reading Shakespeare with their students because the plays do contain material that they would deem inappropriate. The Alveary generally follows Mason's programs for younger students. That does not mean, however, that your student will never encounter anything unsavory. Our best advice is to read in such a way that these things are moved over quickly, without added attention being drawn to them. Mason assures us that Shakespeare provides students with rich language and character lessons that are unparalleled.

Shakespeare: Grades 5-8

How To Teach

Prepare

- Read through the lesson and gather any materials or find any necessary links.
- If you have not already read the book, you may want to read the selected pages in advance, especially for Shakespeare lessons. It is helpful to read the play or a preview of it beforehand.
- Choose which books to have students start reading independently (General Literature selections are especially good for independent work).

Recap

- Connect back to the previous lesson. Ask students to give a summary of what they remember and/or predict what might come next. (Full narration is not necessary.)
- If students have difficulty recalling, teachers might try showing them an illustration, sharing something that the teacher remembers, or prompting them with the first sentence of the last reading. This will often refresh their memory enough to allow them to recall.
- If students still cannot recall anything from the last reading, then teachers might consider continuing anyway (with a shorter reading and/or using a combination of visual and audio support this time) or repeating the last lesson, depending on the reading and the nature of the book.

Introduce

- Use a picture, map, or engaging question to pique the student's interest in the day's lesson.
- If necessary, you may talk about one or two unfamiliar words that will be crucial to understanding.

Read

- Read the day's passage aloud or have students read independently. For Shakespeare, it is highly recommended that each student have their own copy of the play and that you read it aloud together or read along and underline/make notes while listening to the audio recording.
- Use supportive strategies and educational tools to reduce frustration and better engage the mind, as appropriate. These could include, but are not limited to, the use of eBooks, pictures, audio, read-aloud, buddy reading, colored reading strips, etc.
- Some students may benefit from having a notebook or piece of scrap paper available to externalize ideas by drawing, recording names, or making symbolic 'squiggle' notes.
- Students who have a difficult time sitting still or listening may benefit from: a fidget of their choice, such as a piece of putty or clay or an afghan; flexible positioning, such as a wobble seat or inverted sitting; or sensory modulation, such as a weighted vest or blanket or adjustment of light, temperature, or sound.

Narrate

- Have students retell the passage orally or in writing. If writing, encourage students to use the full remaining lesson time and include as much detail as they can remember. For Shakespeare or challenging books, it may be helpful to narrate more frequently and/or use props.
- Alternatively, learners may use words, pictures, legos, dolls, etc. to process and convey ideas in the manner most natural to them.
- Students who used paper or a notebook to externalize may refer to these for support. Other students who need external support may benefit from looking at a map or picture from the book while narrating.
- Students who tend to use the same type of narration all the time, can be encouraged to try another form of narration by first doing it together through play or discussion.
- Teachers may take turns to model.
- Narration is a complex skill that requires the coordination of several parts of the brain. If a student struggles to narrate in general, with a specific subject or book, or on one day but not others, then this is an opportunity to learn. Observe when they struggle with this or any other activity today; notice facial expressions and body language; listen to what they tell about why it is hard or how they feel about it. Take note of these observations for later, tell them that you see how hard they are working, and then offer whatever support they need to end on a positive note or take a break for the day, if necessary.

Discuss

- Give the student an opportunity to share thoughts on the lesson and any connections made.
- To stimulate discussion, you could ask them what they thought about the passage or ask an open-ended question.

WEEK 1 30m Shakespeare: Grades 5-8 - Lesson 1

Materials: The Tempest

PREP: Read an overview of the play (one synopsis is located at the beginning of the Folger edition of the play). If you are not familiar with the play, you will want to read other retellings. We highly suggest Stories from Shakespeare by Marchette Chute. Resources are listed on the Extra Helpings Page. Also, be sure to read the note about mature content and language in Shakespeare in the Planning and Prep section.

→ INTRO

The Tempest is not a traditional tragedy or comedy. It is often called a Tragicomedy because it has both comedic and tragic elements. Overall, the play has a happy ending which places it in the comedic category. The name of the play 'tempest,' means "a violent storm." At the beginning, there is a violent storm which destroys a ship. Take time to review the elements of tragedy and comedy in the Genres link.

Watch a clip of Aslan's breath. C.S. Lewis was an English professor and was very familiar with Shakespeare's works. There is an intriguing parallel between The Winter's Tale and The Lion, the Witch, and the Wardrobe. Watch the scene, Aslan's breath, and see if the students can spot the parallel. Consider too how the breath of God is used in Scripture to create life (Gen. 2:7), resurrect the dead (Ezek. 37:9-10), and to impart the Holy Spirit (John 20:22).
