Mathematics: Grade 11

Students should look ahead to college math requirements at schools they may want to attend or majors they may plan to pursue and plan accordingly. It is important to work at a student's pace. Alveary pacing has students study geometry and algebra concurrently in 9th and 10th grade and then finish Algebra II/Trig during 11th grade. Students can then start precalculus in 11th grade and finish 12th grade with precalculus or calculus.

Placement & Combining Tips

Mathematics: Grade 11

Students should have facility with Algebra 1 before beginning Algebra 2/Trig.
