Art: Level 7

☐ View Art Teacher Training Tutorials as you need them throughout the years of art study (see Quick Links below). Read Drawing, Design, and Craft-Work by Glass p.1-33 to understand the "why" behind what we do in art lessons and look over Brushwork: Elementary Brush-Forms for levels 1-3 and Fast Track or Brush Drawing by May Mallam for students in levels 4-8.

☐ Print online images as you need them for lessons. It is very important that students work from printed photos in books or magazines (or printed from the internet) rather than from a device. Computers, iPads, etc., are lightboxes whose illumination affects the way an object is seen. This illumination is not controllable and will lead to confusion and frustration. Students are

welcome to view artwork or photographs on a device, but when they are working from a reference photo, it needs to be printed, and they should not work from a screen.

☐ Prepare a large, frameless chalkboard for each student to allow for large shoulder movement. This could be on the backside of their individual drawing boards or one large chalkboard on the wall. Do what works best for your students and classroom. You can view the teacher tutorials to learn how to create a chalkboard for your student(s).

☐ Before you begin the color theory or brush drawing term, prepare paint palettes by putting a small amount of each pigment in its own single palette space. Allow to dry for several days. View the video playlist of Art Teacher Training Tutorials to learn how to prepare, clean, and label your palette.

• Level 7 Palette: Neutral, Phthalo Blue, Quinacridone Gold, and Quinacridone Red (wait until Term 3 to add White for mixing gray)

☐ Preview lesson plans to know if you will need a special supply for an upcoming lesson and organize supplies for easy lesson setup. Replenish supplies as needed.

How To Teach

Prepare

Make sure your art supplies are organized and easily accessible. Look ahead to the upcoming lessons and gather supplies needed.

Recap

Connect back to the activities and ideas from last lesson.

Introduce

Teach students the new skill (model it yourself and use the book or video resource in the lesson). Look at examples.

Practice

Give students time to practice the new skill. Keep the "Guiding Questions" document (see Appendix) for reference when practicing observational skills.

Discuss

Have students discuss, observe, and self-evaluate their work.

Term 1

WEEK 1 45m Art: Level 7 - Lesson 1

Color Theory: Introducing Phthalo Blue, Quinacridone Gold & Quinacridone Red

Materials: spray bottle, watercolor palettes prepared with new primary colors Phthalo Blue, Quinacridone Gold & Quinacridone Red, brushes, water, cloth, printed color wheel

PREP: Print on cardstock
∞ Link: Color Wheel

→ RECAP

- Recall all you know about color thus far.
- Name the primary colors that you used in previous levels.

→ VIEW, NARRATE, & DISCUSS

∞ Video Link: Different Primaries = Different Rainbows L7 L1

→ INTRO

We will use new primary colors in Levels 7 & 8: Phthalo Blue, Quinacridone Gold & Quinacridone Red. New primary colors will create a completely new rainbow. Let's create a new color wheel as we begin to explore our new colors. We have two lessons to complete this.

→ PRACTICE

- New color wheel (Complete over two lesson periods; work at your own pace.)
 - Paint primary colors first; then secondary; then tertiary.
 - Students will need to mix fresh secondary and tertiary colors.
 - Refer to the example to see placement within the wheel.
 - Color placement on the color wheel must be exact. Start over if you make a mistake.
 - The color wheel will be referred to all term so keep it in a handy place. One idea is to paste it onto the inside cover of your Art Book.
- ∞ Image Link: Example of Expanded Color Wheel

WEEK 1 45m Art: Level 7 - Lesson 2

Color Theory: New Expanded Color Wheel

Materials: spray bottle, watercolor palettes, brushes, water, cloth, color wheel

→ RECAP

- What are our new primary colors? (Phthalo Blue, Quinacridone Gold & Quinacridone Red)
- What were the primary colors in previous levels? (Quinacridone Pink, Prussian Blue, and Hansa Yellow)

→ PRACTICE

- Complete the new color wheel.
 - Finish mixing colors and painting them in the appropriate places.
 - Refer to the example if you are confused about placement within the wheel.

We will use new primary colors in Levels 7 & 8: Phthalo Blue, Quinacridone Gold & Quinacridone Red. New primary colors will create a completely new rainbow. Let's create a new color wheel as we begin to explore our new colors.

→ PRACTICE

- Make other color wheels by mixing your previous primaries with the new primaries. Anytime you sub one primary for another, you will get a completely new rainbow. So if you kept Phthalo Blue and Quinacridone Gold, but used Quinacridone Pink, you would get different oranges and purples. If you used Prussian Blue and mixed it with Quinacridone Red, you would get a different purple, etc. Just be sure to keep your experimental palette separate from your working palette.
