

Lettering

Level 1

About the Course

Learn and practice lettering techniques to create meaningful and inspirational hand-lettered art. Lesson topics include serified, sans-serifed, and script fonts, line width and value, guidelines, outlines, and shadow lines, key principles of design, dimension, and shading. Each term concludes with a project, and skills can be used to create beautiful collections of mottoes and quotes in a Commonplace Book or for display or gifts.

Placement & Combining Tips

Suitable for interested younger students.

- ☐ Allow time for loading and viewing the tutorial video each time you begin a new style. Then, plan your lesson time accordingly.
- ☐ Purchase supplies, then organize and store them where they can be easily accessed.
- ☐ If you haven't done so already for Art Instruction lessons, prep your chalkboard before beginning lessons. (See video in Lesson 1)
- ☐ The best chalkboard option is to paint a wall that students can access during lesson time. If that is

not possible, a usable substitute would be to either paint the back of the drawing board used in art lessons or purchase a frameless chalkboard.

How To Teach

Warm Up

Have the students spend a few minutes warming up by practicing large arm movements on the chalkboard and drawing a few strokes they have already learned.

Observe

Look at the new stroke or letter together. Allow the students to articulate what they notice. How will they achieve the desired look?

Practice

Students should practice with a small piece of chalk (on its side) on the chalkboard first so that erasing is easy. Then have students practice the new stroke, letter, or letter combination with pen and paper. They should practice until they have six perfect examples before moving on to the next stroke.

Evaluate

Have the students self-evaluate. They may circle their best examples or reflect on which parts were done well and which ones need more practice.
