Geography: Grade 9

How To Approach

Recap

- Take a second to recall what you read previously in the same book or topic. This is not necessarily a full narration, but rather a recall of the main points and any interesting ideas.
- If the last passage is difficult to remember, try looking back at the chapter title or a picture from within the chapter.

Map Work

- Each week, you will be looking at maps, constructing your own, locating places, and filling in the details of your map. Keep your map and atlas near you as you read.
- These lessons refer to a 'rough sketch' method that Charlotte Mason employed in which the rough shape of the map is sketched through observation and then memory. The rough sketch is not intended to be precise or detailed. Examples are linked to the first lesson.
- If an alternative to a physical sketch is needed, you may trace or use the mental sketching described in the first lesson throughout the course. You may also experiment with different methods for interest or to see which method helps you best.
- One way to personalize interest and challenge in this course is to adjust the amount and type of locations included in Mapwork. If the number of locations listed is too numerous for you to think about and remember, then map fewer, choosing locations that seem interesting and relevant to the point of the book. If the number of locations listed leaves you wanting more, then add more.

Read

- Read the selection assigned OR read for the number of minutes allocated, leaving time for narration and mapwork. Use whichever guide (i.e., pages or minutes) works best for you. You want to read enough to be interesting, but not so much that you feel overwhelmed.
- If a book is challenging for you as a student, try stopping to narrate to yourself silently for a minute every now and then to make sure you are tracking. You might also want to read aloud to yourself. Or you might want to listen to an audiobook version of the text and read along with it.
- If a book is an easy read, enjoy the ride!
- Keep an eye out for quotes to put in your commonplace book or events or characters to put down in your Book of Centuries.

Narrate

- You will narrate orally or silently to yourself using your map to help you connect what you are reading to your map as well as to interact with and think about the ideas discussed in the chapter.
- For the book *All Over the Map*, you will come up with questions or comments about the maps you are looking at and reading about.

Memory Activity

- Periodically, you will practice sketching the maps that you have already worked on to help you remember and strengthen the mental map in your head of the various regions of the world. This will be very helpful when you are listening or reading about current events, as well as when

reading about various places in your other courses.

- If you are using the mental sketching method, then use a blank map for these activities.

Teacher Note

These lessons are written directly to students, but to assist them throughout the year, please read through this section and the lesson plans so you are familiar with the instructions and flow of the lessons. Accountability components are added to facilitate teacher/student discussion and growing independence.

It is also valuable for those in a classroom setting to have a mix of lessons that students complete themselves silently and others read aloud and narrate together. Geography lessons lend themselves well to a larger discussion time at the end of the lesson where student can share their maps and the ideas they found interesting.

Term 1

WEEK 1 ☐ 30m Geography: Grade 9 - Lesson 1

World Geography

📄 Materials: Prisoners of Geography

Russia

→ INTRO

To aid communication throughout this course, we will call the big blue Prisoners of Geography: Our World Explained in 12 Simple Maps book simply your "map book," and we will call Prisoners of Geography: Ten Maps That Explain Everything About the World your "Prisoners of Geography" book.

→ MAP WORK

Print one blank map of Russia.

∞ Map Link: Blank Map of Russia

Using the blank map as a pattern to trace or as a guide, sketch a rough map of Russia in your notebook. As in the sample sketch maps at the link, the basic shape is the objective rather than detailed perfection. If an alternative to sketching or tracing is needed, students may use their finger to trace the blank map. In this way, a blank map may be substituted for the sketch as needed throughout these lessons. Like imagining shapes in clouds, consider what the shape of the map looks like to help you remember your mental sketch.

∞ Image Link: Sketch maps

Using your atlas, globe, phone, and/or p.8-9 in your Prisoners of Geography book, locate the following items. Add to your map and label as many as you can reasonably recall:

●Moscow ●St. Petersburg ●Murmansk ●Arctic Circle ●Ural Mountains
●Lake Baikal ●Siberia ●Volga River ●Crimea ●Vladivostok ●Anything else you would like

→ READ & NARRATE

Read aloud or silently.

Prisoners of Geography p.1-9 (Introduction)

★ STUDENT TIP

Make a point to know and look up something about places mentioned in the current news and events of the day. Look up place names in your atlas. Perhaps make a map to identify event locations throughout the year.

WEEK 1 ☐ 30m Geography: Grade 9 - Lesson 2

Historical Geography

📄 Materials: All Over the Map, geography notebook

→ READ

All Over the Map, 9 pages a week

→ WRITE

Compose 5 questions and/or 5 reflections about the map. Also, write down any ideas that come to mind about maps you could draw based on the ones you are studying. For example, you may be inspired to draw a map showing the relative lengths of all the rivers and streams near you after looking at the map on p.23.

Be sure to turn some of your ideas into reality over the term.

Be sure to turn some of your ideas into reality over the term.

WEEK 3 30m Geography: Grade 9 - Lesson 5

World Geography

Materials: Prisoners of Geography, map book

Russia Continued

→ MEMORY SKETCH

Sketch a rough map of Russia and see what you can fill in without looking at your map. If you have been using blank maps, you may continue to do so, or you can try a rough sketch now!

→ MAP WORK

Read p.12-15 in your map book. Locate/add to your map:

•Bering Strait •Add the border countries •Anything else you would like

→ READ & NARRATE

Read aloud or silently, referencing your map
Prisoners of Geography p.25-37 (second half of Russia)

• DISCUSS

If you are working independently, plan a time this week to go to your teacher, show them your map, and share something you are learning about this region of the world. If interested, you could create and share a travel log with illustrations or images that represent important ideas about the country or a travel poster created on Canva or another computer program. If working in a class, share with your classmates and teacher.
