Grammar Concept: Adjectives & Agreement

In Spanish, adjectives must match the noun they describe in both gender (masculine/feminine) and number (singular/plural).

Generally, adjectives ending in -o change to -a for feminine, and both add -s or -es to become plural. Adjectives ending in -e or a consonant usually remain the same for gender but change for number.

Grammar Concept: Sentence Structure

Spanish sentence structure typically follows the Subject+Verb+Object (SVO) pattern, similar to English. However, Spanish is much more flexible, allowing word order changes for emphasis. This includes: dropping subject pronouns and placing adjectives after nouns. (This is just an introduction, this subject is very involved and requires more explanation.)
