

Art

Level 4

About the Course

Skills Focus: New skills introduced are simple perspective, landscape drawing, light source, shadows, tonal variations, and drawing board use. Charcoal is introduced as a new medium. Mathematical drawing is explored through tessellations. More complex color theory is explored with tertiary and complementary colors, an expanded color wheel, mixing browns, and value change in color. New watercolor skills: wash, graduated wash, and lifting. Continue strengthening skills with soft pastels. Brush drawing assignments span the year as opposed to one term.

Placement & Combining Tips

If students are in grade 5 and below and have not had formal art lessons, they should begin with Level 1. However, those with prior art knowledge can take the Level 1-3 fast-track lessons and then continue with Level 4.

Prerequisite: Level 3 or appropriate skill proficiency.

Art: Level 4

☐ View Art Teacher Training Tutorials as you need them throughout the years of art study (see Quick Links below). Read Drawing, Design, and Craft-Work by Glass p.1-33 to understand the "why" behind what we do in art lessons, and look over Brushwork: Elementary Brush-Forms for levels 1-3 and Fast Track or Brush Drawing by May Mallam for students in levels 4-8.

☐ Print online images as you need them for lessons. It is very important that students work from

printed photos in books or magazines (or printed from the internet) rather than from a device. Computers, iPads, etc., are lightboxes whose illumination affects the way an object is seen. This illumination is not controllable and will lead to confusion and frustration. Students are welcome to view artwork or photographs on a device, but when they are working from a reference photo, it needs to be printed, and they should not work from a screen.

☐ Prepare a large, frameless chalkboard for each student to allow for large shoulder movement. This could be on the backside of their individual drawing boards or on a large chalkboard on the wall. Do what works best for your students and classroom. You can view the teacher tutorials to learn how to create a chalkboard for your student(s).

☐ Before you begin the color theory or brush drawing term, prepare paint palettes by putting a small amount of each pigment in its own single palette space. Allow to dry for several days. View the video playlist of Art Teacher Training Tutorials to learn how to prepare, clean, and label your palette.

- Level 4 Palette: Prussian Blue, Hansa Yellow, and Quinacridone Pink

☐ Preview lesson plans to know if you will need a special supply for an upcoming lesson, and organize supplies for easy lesson setup. Replenish supplies as needed.

Art: Level 4

How To Teach

Prepare

Make sure your art supplies are organized and easily accessible. Look ahead to the upcoming lessons and gather supplies needed.

Recap

Connect back to the activities and ideas from last lesson.

Introduce

Teach students the new skill (model it yourself and use the book or video resource in the lesson). Look at examples.

Practice

Give students time to practice the new skill. Keep the "Guiding Questions" document (see Appendix) for reference when practicing observational skills.

Discuss

Have students discuss, observe, and self-evaluate their work.

Term 1

WEEK 1 30m Art: Level 4 - Lesson 1

Drawing: Techniques for Holding Media and Setting up Drawing Board

Materials: Drawing board, pastels, Art Book, chalk, chalkboard

→ WARM UP

Practice strokes and shapes on the chalkboard using large shoulder movements.

→ INTRO

Today, we are going to learn the correct way to hold media (chalk, pastel, or pencil) and how to set up a drawing board.

→ PRACTICE

Set up the drawing board and draw with pastels using correct techniques.

- Discuss with students the correct way to hold media.
 - Watch the video on how to hold your drawing tools.
 - View the image of how to hold your drawing board.
 - Have students set up their drawing board in the correct position.
 - Do a free draw in your Art Book with pastels.
- ∞ Video Link: How to Hold Media (YouTube)
∞ Image Link: How to Set Up a Drawing Board

→ DISCUSS

What was noticed or discovered?

• OBSERVE & DISCUSS

Practice identifying Art skills. Remember to hold your pastels correctly during nature journaling.

WEEK 1 30m Art: Level 4 - Lesson 2

Drawing: Cubical Objects

Materials: Drawing, Design and Craft-Work, chalk, chalkboard, drawing board, pastels, tissue box, or other cubical object

PREP: Read "Rectangular Objects" p.24-31.

→ WARM UP

Practice strokes and shapes on the chalkboard. Use large shoulder movements.
"Plate 1" p.11

→ VIEW, NARRATE, & DISCUSS

∞ Video Link: Measuring with the Eye and Drawing Tool (YouTube)

→ NOTE

This lesson is to be completed without drawing instruction. The purpose is for students to see what they see. In the next drawing lesson, they will learn the proper way to draw objects in perspective.

→ PRACTICE

Do an observational drawing of a cubical object.

- Students should set up their drawing boards on their laps with their Art Book clipped in and opened to a new page.
- Set a tissue box or other cubical object at the student's eye level where the student can easily lift their eyes and see the entire object.
- Discuss observations.
- Have students draw the cube in the air with a finger.
- Have students draw and fill in the whole cubical form (not an outline) in their Art Book using the side of the pastel and measuring with the eye.
- Repeat as time allows. Turn the cube so that it is at different angles and draw again.
- Set the cube above eye level (worm's eye view) and draw what you see using the eye measuring technique. Set the cube below eye level (bird's

• OBSERVE & DISCUSS

Practice identifying Art skills. Be careful to hold your pastels correctly when drawing in your nature journal.

Term 1

eye view) and draw what you see.

→ DISCUSS

Tell what was noticed or discovered.

WEEK 2

30m Art: Level 4 - Lesson 3

Drawing: Cubes and Rectangular Prisms with Pastels

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, drawing board, pastels, tissue box, or other cubical object

→ WARM UP

Practice strokes and shapes on the chalkboard.
"Plate 1" p.11

→ VIEW, NARRATE, & DISCUSS

∞ Video Link: Drawing Cubes L4 L3

→ PRACTICE

Draw cubes and rectangular prisms with pastels.

- Students should set up their drawing boards on their laps with their Art Book clipped in and opened to a new page.
 - Study "Plate 8."
 - Draw cubes and rectangular prisms at different angles and of different sizes. Be sure that your horizontal lines are always horizontal and your verticals always vertical so that your boxes are believable.
 - Remember that you only ever see three sides of a box at a time.
 - Be sure that you are doing mass drawings and not outlines.
 - Discuss observations.
 - Draw additional boxes as time allows.
- "Plate 8" p.25

→ DISCUSS

Tell what was noticed or discovered.

• OCCUPATIONS

Try to turn your cubes and rectangular prisms into real-life objects like tables, chairs, sofas, beds, houses, etc.

• OBSERVE & DISCUSS

Practice identifying Art skills.
Notice cubes and rectangular prisms all around you.

WEEK 2

30m Art: Level 4 - Lesson 4

Drawing: Horizontal Perspective

Materials: Dry-erase marker, 8" x 10" glass sheet, painter's tape

PREP: Students will need an 8" x 10" glass plate today. The glass plate can be removed from a picture frame. Be sure to tape the edges with masking or other thick tape for safety. They will use this glass plate again in later lessons. Students will need to observe a straight path (such as a road, bike path, sidewalk, or long hallway).

→ VIEW

∞ Video Link: How to Prepare a Glass Sheet L4 L4

→ VIEW, NARRATE, & DISCUSS

∞ Video Link: Looking Glass L4 L4

→ VIEW, NARRATE, & DISCUSS

Straight path

- What is at eye level, below, and above?
- What is close and what is far away?
- What happens as you move farther away from things like trees, light poles, or buildings?

→ PRACTICE

Horizontal perspective. Hold your glass sheet in front of you with your least dominant hand. Use your other hand to trace the lines of the path and other objects with a dry-erase marker onto your glass sheet.

• OBSERVE & DISCUSS

Practice identifying Art skills.
Practice drawing using silhouettes (avoiding outlines) during nature walks.

Art: Level 4

[Click THIS text or scan the QR code for links.](#)

Term 1

→ DISCUSS

Tell what was noticed or discovered.

WEEK 3 30m Art: Level 4 - Lesson 5

Drawing: Horizon Line

Materials: drawing board, pastels, Art Book

→ RECAP

Discuss horizontal perspective.

→ INTRO

Explain the concept of the horizon. Horizon is the “line” where the ground and the sky meet.

→ VIEW, NARRATE, & DISCUSS

∞ Video Link: Horizon Line L4 L5

→ PRACTICE

- Students should set up their drawing boards on their laps with their Art Book clipped in and opened to a new page.
- Students should do a simple landscape in their Art Book using pastels.

→ NOTE

Students this age often draw landscapes with a void or white space between the sky and the ground. This must be trained out of the student. Help them to see that in real life, wherever one looks, there is no void space—the sky and the ground always meet.

→ DISCUSS

Tell what was noticed or discovered.

• OCCUPATIONS

Do more landscape drawings. Try sitting in different spots inside your classroom and looking out the windows at different angles. Notice how the view changes based on where you sit.

• OBSERVE & DISCUSS

Practice identifying Art skills. Look at photos and identify the horizon “line.”

∞ Link: Horizon Lines (PDF of images)

WEEK 3 30m Art: Level 4 - Lesson 6

Drawing: Landscape

Materials: drawing board, pastels, Art Book

→ RECAP

Horizon “line”

→ NOTE

The tutorial videos together span 32 minutes in length. You may choose to watch one or the other, or watch them on double time. Students may not have time to work if they watch both videos in their entirety.

→ VIEW, NARRATE, & DISCUSS

∞ Video Link: Perspective L4 L6

∞ Video Link: 1-Point Perspective L4 L6

→ PRACTICE

Landscape drawing.

- Students may choose to work along with the video, but it is a good idea to watch the video all the way through first.
- Students should set up their drawing boards on their laps with their Art Book clipped in and opened to a new page.
- Students should draw a simple landscape.
- Draw boxes in the landscape like the ones in the “1-point perspective” tutorial video.

→ DISCUSS

Tell what was noticed or discovered.

• OCCUPATIONS

Turn the boxes in your landscape into recognizable objects.

• OBSERVE & DISCUSS

Practice identifying Art skills. Notice and discuss cubes and rectangular prisms in nature.
