About the Course

This course uses Bible stories to introduce children to the beauty and flow of Scripture.

This topic is included in the following course(s): Bible: Grade 1

Placement & Combining Tips

Those who wish to combine first graders and older students should choose either this course or any of the Bible courses for grades 2-6. Older students who are unfamiliar with Bible stories may wish to read these stories independently.

Bible Stories

How To Teach

Recap

- Connect to previous lessons by asking students to recall where they left off.
- If students have difficulty recalling, teachers might try showing them a picture from the reading, sharing something the teacher remembers, or prompting them with the first sentence of the last reading. This will often refresh their memory enough to allow them to recall.
- If students still cannot recall anything from the last reading, teachers might consider continuing anyway (with a shorter reading this time) or repeating the previous lesson, depending on the reading and the nature of the book.

Read

- Read the chapter or selection aloud. When reading to pre-readers, point to the words as you read, even if it seems they aren't paying attention.
- Move at the students' pace during the lesson, rather than feeling that a particular number of pages must be completed. It is vitally important that teachers not overload students with more material than they can absorb in one sitting.
- Students who have difficulty sitting still or listening may benefit from a fidget of their choice, such as a piece of putty or clay or an afghan; flexible positioning, such as a wobble seat or inverted sitting; or sensory modulation, such as a weighted vest or blanket or adjustment of light, temperature, or sound.
- Students with regular difficulty engaging often benefit from having a picture to associate with the story WHILE listening. Feel free to view the artwork during the reading rather than after the narration.

Narrate

- Have students retell the passage orally.
- Alternatively, learners may use words, pictures, Legos, dolls, etc., to process and convey ideas in the manner most natural to them.
- Teachers may take turns to model.
- Narration is a complex skill requiring the coordination of several parts of the brain. If a student struggles to narrate in general, with a specific subject or book, or on one day but not others, then this is an opportunity to learn. Observe when they struggle with this or any other activity today. Notice facial expressions and body language; listen to what they say about why it is hard or how they feel about it. Take note of these observations for later, tell them that you see how hard they are working, and then offer whatever support they need to end on a positive note. If necessary, take a break for the day.

View

- Optional: Share a piece of fine art that illustrates the story.

Discuss

- Give students an opportunity to share their thoughts on the lesson and any connections made.

WEEK 1

20m Bible Stories - Lesson 2

New Testament: The Annunciation (Luke 1:1-80)

Materials: Hurlbut's Story of the Bible

→ NOTE

Charlotte Mason would alternate between OT and NT for Bible lessons. She always wanted students to be reading about the life of Christ. For some students, switching back and forth can get confusing. You may want to use a resource like God's Bible Timeline, which is part of the program for grades 2-6. When you recap a lesson, it might be easier for your student to recap the last NT lesson if you are reading the NT that day. You do not need to worry about students understanding the flow of the Bible story at this age or mixing up who is in the OT and who is in the NT. They will sort it out as they get older and will grow in their understanding over time. For students who are overwhelmed or frustrated by switching between OT and NT, teachers may opt to do all the OT lessons first and then do all the NT lessons.
