

# Sloyd

Level 6

## About the Course

Complete assigned models, focusing on craftsmanship. Students work with cardboard to create 3-dimensional geometric shapes.

## Placement & Combining Tips

Grade 7 students who are new to Sloyd should begin with Sloyd: Level 1 and then continue courses in sequence.

Prerequisite: Sloyd: Level 5

## Scheduling

| GRADE | SCHEDULE INFO.                       | BOOKS |
|-------|--------------------------------------|-------|
| 7+    | Sloyd: Level 6<br>1 time/week 45 min | Sloyd |

### Sample Weekly View

| Day 1                 | Day 2 | Day 3          | Day 4 | Day 5 |
|-----------------------|-------|----------------|-------|-------|
| <b>Sloyd: Level 6</b> |       |                |       |       |
|                       |       | Sloyd: Level 6 |       |       |

## Planning & Prep

Permission to print for non-commercial use. See Alveary group use policy to use lessons in a group context.

### Sloyd: Level 6

☐ View the "Sloyd Introduction Video" in the Quick Links below for an overview of materials and resources used in Sloyd.

☐ Allow time for loading and viewing videos if available. We recommend teachers preview tutorials and work a model before teaching it.

☐ Purchase supplies and introduce students to their Sloyd tools (discuss their care and safe use). Organize them so they are easily accessible.

### Sloyd: Level 6

Glue Sticks

Easel

Awl

18" Ruler

Fold-and-Score Tool/Bone

T-Square

X-Acto Knife

Cutting Mat

Tagboard

Chipboard

12" x 17" Drawing Paper

## How To Teach

|                                                                                    |                                                                                                                                                                                                                   |
|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   | <p><b>Overview</b></p> <p>Lessons will go much more smoothly if you prepare thoroughly. As students gain experience, develop fine motor skills, and practice habits of precision they will need less support.</p> |
|   | <p><b>Prepare</b></p> <p>Watch video tutorials or make the model yourself. Gather supplies and materials needed.</p>                                                                                              |
|   | <p><b>Recap</b></p> <p>Connect back to previous lesson and skills learned.</p>                                                                                                                                    |
|   | <p><b>Read</b></p> <p>Read the instructions one step at a time. Model each step and make sure students complete it with precision before moving to the next step.</p>                                             |
|  | <p><b>Practice</b></p> <p>When a project is complete, students may repeat it as many times as they wish to give as gifts or create original patterns similar to the project.</p>                                  |

## Term 1

### WEEK 1 45m Sloyd: Level 6 - Lesson 1

#### Cardboard Work Model 1 Pair of Steps

Materials: Sloyd by Schwartz, paper, chipboard, ruler, pencil, scissors, tape, awl, bone (optional), X-Acto knife

#### → VIEW

Photo of model and tutorial. Visualize steps to work the model.

∞ Image & Video Link: Pair of Steps

#### → PRACTICE

Work on the model. Create first on paper then transfer to cardboard.

Read and demonstrate instructions one step at a time.

Cardboard Work: 3-D Geometric Shapes "No.10: Pair of Steps" p.53-54

Find a creative way to use your finished model. Create another one out of different materials, scaling your work either up or down by changing the measurements.

### WEEK 2 45m Sloyd: Level 6 - Lesson 2

#### Cardboard Work Model 1 Pair of Steps

Materials: Sloyd by Schwartz, paper, chipboard, ruler, pencil, scissors, tape, awl, bone (optional), X-Acto knife

#### → VIEW

Photo of model and tutorial. Visualize steps to work the model.

∞ Image & Video Link: Pair of Steps

#### → PRACTICE

Work on the model. Create first on paper then transfer to cardboard.

Read and demonstrate instructions one step at a time.

Cardboard Work: 3-D Geometric Shapes "No.10: Pair of Steps" p.53-54

Find a creative way to use your finished model. Create another one out of different materials, scaling your work either up or down by changing the measurements.

### WEEK 3 45m Sloyd: Level 6 - Lesson 3

#### Cardboard Work Model 1 Pair of Steps

Materials: Sloyd by Schwartz, paper, chipboard, ruler, pencil, scissors, tape, awl, bone (optional), X-Acto knife

#### → VIEW

Photo of model and tutorial. Visualize steps to work the model.

∞ Image & Video Link: Pair of Steps
