

Art

Fast Track

About the Course

An accelerated course through art concepts covered in Art Levels 1-3.

Placement & Combining Tips

If students are in grade 6 or above or have prior experience with art, they should begin with the fast-track lessons and then move on to Level 4 Art.

Scheduling

GRADE	SCHEDULE INFO.	BOOKS
5-8	Art: Fast Track 2 times/week 30 min	Brushwork: Elementary Brush-Forms Drawing, Design, and Craft-Work

Planning & Prep

Permission to print for non-commercial use. See Alveary group use policy to use lessons in a group context.

LINKS: Click text or scan the QR code in the top corner of the lesson plan pages to view online resources associated with the lessons.

Responsibility for previewing all links rests with the teacher. All links were checked at the time of publication; however, websites change frequently and may contain objectionable content. Please report broken links by contacting us through our website.

Art: Fast Track

☐ View Art Teacher Training Tutorials as you need them throughout the years of art study (see Quick Links below). Read Drawing, Design, and Craft-Work by Glass p.1-33, to understand the "why" behind what we do in art lessons, and look over Brushwork: Elementary Brush-Forms for levels 1-3 and Fast Track or Brush Drawing by May Mallam for students in levels 4-8.

☐ Print online images as you need them for lessons. It is very important that students work from printed photos in books or magazines (or printed from the internet) rather than from a device. Computers, iPads, etc., are lightboxes whose illumination affects the way an object is seen. This illumination is not controllable and will lead to confusion and frustration. Students are welcome to view artwork or photographs on a device, but when they are working from a reference photo, it needs to be printed, and they should not work from a screen.

- ☐ Prepare a large, frameless chalkboard for each student to allow for large shoulder movement. This could be on the backside of their individual drawing boards or one large chalkboard on the wall. Do what works best for your students and classroom. You can view the teacher tutorials to learn how to create a chalkboard for your student(s).
- ☐ Before you begin the color theory or brush drawing term, prepare paint palettes by putting a small amount of each pigment (Quinacridone Pink, Prussian Blue, and Hansa Yellow) in its own single palette space. Allow to dry for several days. View the video playlist of Art Teacher Training Tutorials to learn how to prepare, clean, and label your palette.
- ☐ Preview lesson plans to know if you will need a special supply for an upcoming lesson, and organize supplies for easy lesson setup. Replenish supplies as needed.

Books & Resources

For book rationales and purchase options, click the Book List link or scan the QR code below.

Art: Fast Track

How To Teach

Prepare

Make sure your art supplies are organized and easily accessible. Look ahead to the upcoming lessons and gather supplies needed.

Recap

Connect back to the activities and ideas from last lesson.

Introduce

Teach students the new skill (model it yourself and use the book or video resource in the lesson). Look at examples.

Practice

Give students time to practice the new skill. Keep the "Guiding Questions" document (see Appendix) for reference when practicing observational skills.

Discuss

Have students discuss, observe, and self-evaluate their work.

Term 1

WEEK 1 30m Art: Fast Track - Lesson 1

Color Theory: Primary and Secondary Colors

Materials: spray bottle, watercolor palette, Quinacridone Pink, Prussian Blue, and Hansa Yellow, brushes, water, cloth, Art Book, waterproof pen

PREP: Prepare the watercolor palette with the three primary colors. Watch the tutorial on how to do this.

∞ Video Link: Preparing and Cleaning Your Palette

→ INTRO

- Read the names of the watercolors on the tubes (Quinacridone pink, Prussian blue, and Hansa yellow). These three colors are primary colors.
- Be sure to clean your brush thoroughly between colors. It is important to keep your paints clean!
- Students will begin by watching tutorials on preparing their palettes by labeling, proper brush care, and cleaning "dirty" paint from their palettes.

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Label Your Palette

∞ Video Link: Brush Care

∞ Video Link: Cleaning "Dirty" Paint in Your Palette

→ PRACTICE

- Label your palette with a waterproof pen such as an Extra-Fine Sharpie.
- Mix secondary colors in clean wells between the primary colors that make them. Orange goes between red and yellow. Purple between blue and red. And green between yellow and blue. You will be using these colors throughout the year, so try to mix a significant amount. We will begin painting primary and secondary colors in the next lesson.

→ DISCUSS

What was noticed or discovered?

→ NOTE

Students should clean up at the end of each lesson. Clean, dry, and store brushes. Leave the palette open to dry.

★ TEACHER TIP

Encourage and remind students to use the skills and techniques learned in art lessons anytime they paint or do nature study. This will help them develop good habits.

TERMINOLOGY

□ "Medium" refers to the art tools used, such as graphite, pastel, watercolor, etc. Media is the plural of medium.

□ "Pastels" are called "crayons" in Drawing, Design, and Craft-Work by Glass. Our modern crayons are not equivalent, as they have wax as a binder. Pastels are considered a painting medium and can be referred to as either painting or drawing, just as watercolors can be called painting or brush drawing.

□ "Art Books" refer to mixed media books that accept dry and wet media without wrinkling or bleeding.

WEEK 1 30m Art: Fast Track - Lesson 2

Color Theory: Color Wheel- Primary and Secondary Colors

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book, printed color wheel

PREP: Print the color wheel on white cardstock. Students will refer to this color wheel for the term. It is a good idea to glue or tape it to the inside of their Art Book.

★ TEACHER TIP

Students should clean up at the end of each lesson. Clean, dry, and store brushes. Leave the palette open to dry.

Term 1

∞ Link: Color Wheel

→ RECAP

- Recall the names of the watercolors. (Quinacridone pink, Prussian blue, and Hansa yellow)
- Recall what those three colors are. (Primary colors)
- Recall how to clean "dirty" paints.
- Recall what to do between colors. (CLEAN YOUR BRUSH!!) It is important to keep your paints clean!!

→ INTRO

After watching videos, students will fill in their color wheel with primary and secondary colors.

→ VIEW, NARRATE, AND DISCUSS

- ∞ Video Link: Watercolor Color Wheel Primary L1 L53
- ∞ Video Link: Watercolor Color Wheel Secondary L1 L54

→ PRACTICE

- Students will paint each primary color in the appropriate place on their color wheel. The placement of each color is exact. If the student accidentally places a color in the wrong section, throw away that color wheel and print a new one to begin again.
- Then, students will paint each secondary color in the appropriate place on their color wheel. The placement of each color is exact. If the student accidentally places a color in the wrong section, throw away that color wheel and print a new one to begin again.
- Set it aside to dry.
- Students will refer back to this color wheel, so it is a good idea to keep it in a handy place. Perhaps, cut it out and paste it into the cover of the students' Art Book.

WEEK 2 30m Art: Fast Track - Lesson 3

Color Theory: Mixing Colors

 Materials: modeling clay, scrap cardboard

PREP: Find several green, purple, and orange objects. Leaves, stems, fruits, vegetables, a green ball, etc. Watch the intro to clay (students will use modeling clay, but the color theory is the same), where she shows how to mix different greens.

∞ Video Link: Starting Out with Polymer Clay
Time Marker: 1:37-2:47

→ RECAP

Recall how to mix green, orange, and purple.

→ STUDY, NARRATE, AND DISCUSS

- Green objects
- Place the different objects in front of the student.

★ TEACHER TIP

You will complete all of your mixes on the same cardboard background.

Term 1

- Discuss what they are and what color they are.
- Compare the colors of each to one of the same color.
- Are all the greens the same? The purples? The oranges?
- We can create different greens, purples, and oranges by adding different colors to each.

→ PRACTICE

- Divide your green into three separate piles.
- Add blue to one, yellow to another, and red to the last one. Now you have three different greens.
- Smash them onto the cardboard and shape them into leaves.
- Repeat the same process for purple and then for orange.

WEEK 2 30m Art: Fast Track - Lesson 4

Color Theory: Color Mixing

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book, waterproof pen

→ RECAP

Recall how to mix primary colors in order to achieve secondary colors. Recall what to do between colors. Clean your brush! It is important to keep your paints clean!

→ PRACTICE

- Allow students the freedom during this lesson to mix colors as they see fit in their Art Book.
- Create a painting of a vase full of flowers sitting on a table from your imagination, using all six of your colors.

→ DISCUSS

What was noticed or discovered?

WEEK 3 30m Art: Fast Track - Lesson 5

Color Theory: Color Wheel- Primary and Secondary Colors

Materials: pastels, cloth, Art Book

PREP: Print the color wheel on white cardstock. Place scrap paper, newspaper, or other surface protection down to protect the area from pastel dust.

∞ Link: Color Wheel

→ NOTE

When using pastels, your directions may say "paint." This is because pastels, though they are dry, are referred to as a painting medium. The language of "draw" and "paint" is also used interchangeably throughout the Art curriculum.

→ INTRO

Students will create a second color wheel using the pastels in their

★ TEACHER TIP

Students should clean up at the end of each lesson by using a damp paper towel to wipe up all pastel dust from their work surface and by spraying their Art Books with a fixative spray. Aerosol hair spray is the best fixative.

Term 1

pastel box.

→ PRACTICE

- Watch the pastel tutorial.
∞ Video Link: Color Theory with Pastels L2 L1 and L3 L25
- Fill in your color wheel with the pastels in your box. Use the primary red, blue, and yellow, and the secondary colors that are the most pure. For example, do not use the lavender but use the deeper purple.
- Remember that the color placements on the color wheel must be exact and that you must start again if you place the colors in the wrong spot.
- The order is red, orange, yellow, green, blue, and purple (and back to red).

→ DISCUSS

What was noticed or discovered?

WEEK 3 30m Art: Fast Track - Lesson 6

Color Theory: Mixing New Secondary Colors

Materials: pastels, paper towel, Art Book, pencil

PREP: Decide on a middle pastel for each of the secondary colors. For example, use a medium purple as opposed to a lavender. Use the purest green as opposed to a dark or lime green.

→ PRACTICE

- Decide on a middle green, purple, and yellow.
- Sketch out 12 squares on one page in your Art Book with a pencil.
- Label the squares green, green + blue, green + red, green + yellow, purple, purple + blue, purple + red, purple + yellow, orange, orange + blue, orange + red, orange + yellow
- Color each square according to its label. Remember, you are only changing the color enough to have a new color, so add only a little of the primary color.

→ DISCUSS

What was noticed or discovered?

WEEK 4 30m Art: Fast Track - Lesson 7

Color Theory: Cool Colors

Materials: Completed color wheel, modeling clay in cool colors, cardboard

PREP: Watch "Cool Color Waves with Modeling Clay." Your student will only be using the cool colors for creating today. They are: purple, green, and blue. You can mix colors to gain more colors. You can also mix white or black with colors to make tints and shades.

∞ Video Link: Cool Color Waves with Modeling Clay

→ NOTE

Term 1

Students will need to press hard in order to adhere the clay to the cardboard.

Alternatively, you could use colored cardstock in a cool color as the background.

→ INTRO

Today, we will learn about “cool” colors. What do you think “cool” colors are? “Cool” colors are blue, green, and purple.

→ STUDY, NARRATE, AND DISCUSS

- Look at your color wheel. Find the “cool” colors. What do you notice? (They are all on the same side.) Discuss observations.
- Why do you think they are called “cool”?
- Look at the Monet images.
 - ∞ Image Link: Monet's Water Lilies
 - ∞ Image Link: Monet
- What colors did Monet mostly use?
- Do these colors make you feel a certain way?
- Does this painting appear as though it comes towards you or away from you?

→ PRACTICE

Smash and manipulate the clay onto the cardboard to create waves in the ocean in cool colors.

WEEK 4 30m Art: Fast Track - Lesson 8

Color Theory: Warm Colors

 Materials: Completed color wheel, modeling clay in warm colors, cardboard

→ NOTE

This lesson proceeds much like the previous one. You can watch the tutorial if you need an example. Students can mix colors to create more variations. You can also add in white for tints and black for shades. Brown is a nice color to add with cool colors to bring in another color variation.

∞ Video Link: Warm Color Flowers with Modeling Clay

→ RECAP

Recall the cool colors. Why do you think they came to be called “cool”?

→ INTRO

Today, we will focus on “warm” colors. These are on the opposite side of the color wheel from cool colors. Warm colors are red, yellow, and orange. This lesson proceeds much like the previous one.

→ STUDY, NARRATE, AND DISCUSS

- Find warm and cool colors on the color wheel.
- Spend time looking at Georgia O’Keeffe’s Red Canna, 1924.
- What colors did she mostly use?

Term 1

- Do these colors make you feel a certain way?
 - Does the painting look as though it comes towards you or away from you? Allow the student to make their own observations, but be sure to keep it focused on the warm colors.
- ∞ Image Link: Red Canna, 1924

→ PRACTICE

Smash and manipulate the modeling clay onto your cardboard in the form of poppies, sunflowers, or any warm-colored flowers you can think of.

WEEK 5 30m Art: Fast Track - Lesson 9

Color Theory: Introduction to Complementary Colors

📋 Materials: Color construction paper, Scissors, glue, Art Book, color wheel

PREP: You will need to cut each of our six colors, red, yellow, blue, green, orange, and purple, into half sheets. Discard the other set of ½ sheets. Cut one ½ sheet set of colors in half again. Discard one of those sets. Now you have a set of ¼ sheets. Now, cut the ¼ sheet in half again. You should have two sets of ⅛ sheets. Put one set aside. Cut the keeper set in half again. One of those halves (now at 1/16 of the original size) will be the background color. Cut the other set of 1/16 into halves again (now 1/32). This will be the color glued on top. Watch the tutorial video for teachers and view the sample of a completed project.

∞ Video Link: PREP Color Theory L2 L6

∞ Image Link: Complementary Colors

→ RECAP

Recall all that you know thus far about the color wheel.

→ VIEW, NARRATE, AND DISCUSS

Today, we are learning about complementary colors. They are the colors that are across from each other on the color wheel. These colors are traditionally known to “look good” together. Think of red and green as Christmas colors. Many sports teams use yellow and purple or blue and orange as their team colors.

∞ Video Link: Complementary Colors L2 L6

→ PRACTICE

- Glue a small rectangle of each color onto the center of its complementary larger rectangle.
- Glue all of these into your Art Book.

→ OBSERVE AND DISCUSS

Practice identifying Art skills. Study paintings from picture study. Find where the artist has used complementary colors.

Term 1

→ DISCUSS

Which colors go together to make the complementary colors?

WEEK 5 30m Art: Fast Track - Lesson 10

Color Theory: Mixing Browns

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book

→ RECAP

Recall complementary colors.

→ INTRO

Students will make browns from their color wheels.

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Mixing Browns L7 L5

→ PRACTICE

- Draw six swatches on your paper with a pencil. Do two rows of three. One row will be for the next lesson. You will be doing the same concept with pastels.
- Label your swatches with the colors you will mix together; i.e., red+green, yellow+purple, orange+blue.
- Mix your browns. Paint the new brown in the appropriate swatch.
- Labeling your browns will be helpful for you to remember how to mix them when you need them.

→ DISCUSS

What did you observe about your colors?

WEEK 6 30m Art: Fast Track - Lesson 11

Color Theory: Mixing Browns with Pastels

Materials: pastels, paper towel, Art Book, pencil

PREP: Decide on a middle pastel for each of the secondary colors. For example, use a medium purple as opposed to a lavender. Use the purest green as opposed to a dark or lime green.

→ PRACTICE

- Decide on a middle color for each color and stick with it for the entire lesson. For example, if you use the cobalt blue pastel, stick with it as opposed to switching it out for a different blue.
- Label your swatches with the colors you will mix together; i.e., red+green, yellow+purple, orange+blue.
- Mix your browns. Paint the new brown in the appropriate swatch.
- Labeling your browns will be helpful so you can remember how to mix them when you need them.

★ TEACHER TIP

Students should clean up at the end of each lesson by using a damp paper towel to wipe up all pastel dust from their work surface and by spraying their Art Books with a fixative spray. Aerosol hair spray is the best fixative.

Term 1

→ DISCUSS

What was noticed or discovered?

WEEK 6 30m Art: Fast Track - Lesson 12

Color Theory: Water Lilies

Materials: pastels, cloth, cardstock or watercolor paper, Monet's Water Lilies

→ NOTE

It is important to print out images for students to work from. They should not work from a screen, as it will be very frustrating for students because of the way it displays light and color.

→ RECAP

Recall how to mix primary colors to make secondary colors.

→ PRACTICE

Look back at Monet's Water Lilies. Create your own version. Work carefully. You will have two class times to work on this. If you finish quickly, look longer at Monet's work and see what you can add.

∞ Image Link: Monet's Water Lilies

→ DISCUSS

Have the student talk through the process they used to mix a color of their choice.

★ TEACHER TIP

Allow students the freedom to mix colors as they see fit in their Art Book. Help them to label their colors so that they can remember how they mixed the color and can mix it again in the future.

Two Color Theory class times are given to this project.

If students' pastel colors are getting messy, wipe them off with a clean paper towel.

WEEK 7 30m Art: Fast Track - Lesson 13

Color Theory: Water Lilies

Materials: pastels, cloth, cardstock or watercolor paper, Monet's Water Lilies

→ RECAP

- Recall how to mix primary colors to make secondary colors.
- Recall what to do to clean messy pastels; wipe them off with a paper towel.

→ PRACTICE

Finish Water Lily painting. (Remember, pastels are considered a dry painting medium in art.)

∞ Image Link: Monet's Water Lilies

→ DISCUSS

Have the student talk through the process they used to mix a color of their choice.

Term 1

WEEK 7 30m Art: Fast Track - Lesson 14

Color Theory: Colored Glassware

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book, 12" x 18" white paper (can be drawing, watercolor, or pastel paper)

PREP: Pre-read the Colored Glassware lesson plan, gather supplies, and watch the YouTube video as an example. You may decide whether or not to show it to your students.

→ RECAP

Recall primary, secondary, warm, cool, and complementary colors.

→ PRACTICE

Work through the project below. This project will take the next few weeks of lessons. Watch the example on YouTube if that would be helpful.

∞ Image and Video Link: Colored Glassware Lesson Plan

∞ Image and Video Link: Make Secondary Colors While Painting Murano Glass Bottles!

→ DISCUSS

Have the student talk through the process they used to mix a color of their choice.

★ TEACHER TIP

If students do not finish the project by the end of the lessons assigned, they can complete the project during afternoons or weekends.

WEEK 8 30m Art: Fast Track - Lesson 15

Color Theory: Colored Glassware

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book, 12" x 18" white paper (can be drawing, watercolor, or pastel paper).

→ RECAP

Recall primary, secondary, warm, cool, and complementary colors.

→ PRACTICE

Continue the project in the linked lesson plan. Watch the example on YouTube if that would be helpful.

∞ Image and Video Link: Colored Glassware Lesson Plan

∞ Image and Video Link: Make Secondary Colors While Painting Murano Glass Bottles!

→ DISCUSS

Have the student talk through the process they used to mix a color of their choice.

Term 1

WEEK 8 30m Art: Fast Track - Lesson 16

Color Theory: Colored Glassware

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book, 12" x 18" white paper (can be drawing, watercolor, or pastel paper).

→ RECAP

Recall primary, secondary, warm, cool, and complementary colors.

→ PRACTICE

Continue the project in the linked lesson plan. Watch the example on YouTube if that would be helpful.

∞ Image and Video Link: Colored Glassware Lesson Plan

∞ Image and Video Link: Make Secondary Colors While Painting Murano Glass Bottles!

→ DISCUSS

Have the student talk through the process they used to mix a color of their choice.

WEEK 9 30m Art: Fast Track - Lesson 17

Color Theory: Value

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book

→ WARM UP

Practice brush-forms.

→ INTRO

Value is the lightness or darkness of a particular color. Today, we will use water to change the value of our six colors: red, orange, yellow, green, blue, and purple. This may take you two lesson periods, so do not rush.

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Watercolor Value Changes L3 L30 and L4 L54

→ PRACTICE

- Fill a clean well in your palette with clean, clear water.
- Paint the clear water on the paper. What happens?
- Add a tiny amount of Prussian Blue on the tip of your brush and mix it into your clear water. Paint it on your paper next to the clear spot.
- Now add another tiny amount of Prussian Blue on the tip of your brush and mix it into the existing well. Paint that value next to the previous one on your paper. Leave a sliver of white paper in between each value that you paint so that all of your values do not run together.
- Do the same thing again, being careful to only add a tiny amount of blue each time. Paint that value next to the previous one on the paper.
- Do this a total of seven times.

Term 1

- Use the same process to create a value scale for each of the six colors.

→ DISCUSS

- What has happened to the color as you repeated these steps?
- Do you notice it getting “darker” as you put more pigment in? (It is actually becoming more intense, but this is for later levels.)
- When using watercolor, you are able to change the value of the color by adding or taking away water.

WEEK 9 30m Art: Fast Track - Lesson 18

Color Theory: Value

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book

→ WARM UP

Practice brush-forms.

→ PRACTICE

Finish creating a value scale for the rest of the colors that you were unable to finish in the last lesson.

WEEK 10 30m Art: Fast Track - Lesson 19

Color Theory: Monochromatic

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book

→ RECAP

- Recall value and how to change the value by adding or subtracting water.
- Recall how to make orange.

→ STUDY, NARRATE, AND DISCUSS

∞ Image Link: Monochromatic Painting

→ PRACTICE

When a work of art uses only one color, it is called monochromatic. Today, students will do a monochromatic painting using ONLY ORANGE. Try to make 6-7 different oranges and then paint a monochromatic landscape in orange.

WEEK 10 30m Art: Fast Track - Lesson 20

Color Theory: Monochromatic

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book

→ RECAP

- Recall value and how to change the value by adding or subtracting water.

Term 1

- Recall how to make green.
- What is a monochromatic painting?

→ PRACTICE

Paint a monochromatic scene from literature that you have recently read. Use only green, but don't do a landscape. Try to make 6-7 different greens.

WEEK 11 30m Art: Fast Track - Lesson 21

Color Theory: Monochromatic

Materials: spray bottle, watercolor palette, brushes, water, cloth, Art Book

→ RECAP

- Recall value and how to change the value by adding or subtracting water.
- Recall how to make purple.

→ PRACTICE

Illustrate a poem you have recently read. Use only purple. Try to make 6-7 different purples.

WEEK 11 30m Art: Fast Track - Lesson 22

Color Theory: Monochromatic Pastels

Materials: pastels, cloth, cardstock, or watercolor paper

PREP: Preview link and decide if you will show it to students as an example.

∞ Link: Monochromatic Pastel

→ RECAP

Recall what to do to clean messy pastels: wipe them off with a paper towel.

→ PRACTICE

- Choose a pastel color from your box of pastels that has the most variations. If blue has four blues but the oranges only have two oranges, then go with blue. Add white and black so that you can mix the darkest and lightest values of your color.
- Create a monochromatic painting of your choice.

→ DISCUSS

What was noticed or discovered?

★ TEACHER TIP

Don't forget to have students clean up at the end of each lesson. Clean, dry, and store brushes. Leave the palette open to dry.

WEEK 12 30m Art: Fast Track - Lesson 23

Exam Week

→ EXAMS

Answer question(s) related to course.

Art: Fast Track

[Click THIS text or scan the QR code for links.](#)

Term 1

Questions will come from:
Art Instruction: Fast-Track Course

WEEK 12 30m Art: Fast Track - Lesson 24

Exam Week

→ EXAMS

Answer question(s) related to course.

Questions will come from:
Art Instruction: Fast-Track Course

Term 2

WEEK 1 30m Art: Fast Track - Lesson 25

Drawing: Introduction

Materials: White chalk, chalkboard, pencil, and scrap paper
(a small piece is fine)

PREP: Read “Introduction” Drawing, Design, and Craft-Work, p.1-12 (to “for the sake of its freedom.”). Paint or hang a chalkboard on the wall or lean on an easel.

View the tutorials and learn some basics to share with students.

∞ Video Link: Mass Drawing Verses Outline Drawing L1 L4

∞ Video Link: Drawing From Your Wrist and Shoulder

→ WARM UP

Allow students three to four minutes to draw freely with the chalk. This will begin the habit of warming up at the chalkboard before drawing, even in later levels. Start strong to end strong.

→ VIEW

During our art lessons, we are going to learn how to draw like real artists.

∞ Video Link: Drawing From Your Wrist and Shoulder

→ PRACTICE

- Ask the student to write his/her name on the scrap paper with the pencil as they normally would.
- Notice the pencil grip, the size of the letters, and what parts of the arm/hand move. (mostly hand and wrist)
- Discuss observations.
- Have the student write his/her name on the upright chalkboard.
- Notice and discuss the differences between the two.
- Which parts of the arm moved then? (whole arm) Model if necessary.
- Tell the students that this is how we are going to draw most of the time: moving the whole arm from the shoulder.
- Allow students to explore the use of the chalk again. Suggest different kinds of marks; i.e., thick marks (chalk on its side), thin marks (on its tip), heavy, light, etc.
- The student may draw or write any words, pictures, or designs desired.
- Make sure to remind them to use their shoulder muscles to draw with and not their wrists or fingers.

→ DISCUSS

What was noticed or discovered?

Term 2

WEEK 1 30m Art: Fast Track - Lesson 26

Drawing: Free Arm Exercises in Chalk

Materials: Drawing, Design, and Craft-Work, white chalk, chalkboard

→ RECAP

Recall what muscles should be used for drawing. (shoulder)

→ WARM UP

Draw with big arm muscles on the board for three minutes. Do mass drawings of squares, circles, triangles, and spirals.

→ STUDY, NARRATE, AND DISCUSS

Students will work through all of the objects on Plate 1.

“Plate 1” p.11

→ PRACTICE AND DISCUSS

- Have students draw the overall shape of that object in the air.
- Students should then draw the same object on the board as a silhouette, carefully and with great thought, as in crafting a letter in penmanship.
- Have students look around the classroom to find a similar object.
- Students should then practice drawing that object from life on the blackboard.

WEEK 2 30m Art: Fast Track - Lesson 27

Drawing: Free Arm Exercises in Chalk

Materials: Drawing, Design, and Craft-Work, white chalk, chalkboard

→ WARM UP

Draw with big arm muscles on the board for three minutes. Do mass drawings of squares, circles, triangles, and spirals.

→ STUDY, NARRATE, AND DISCUSS

Collect objects around the classroom similar to those on “Plate 1” p.11.

→ PRACTICE AND DISCUSS

- Have students look around the classroom to find a similar object.
- Have students draw the overall shape of that object in the air.
- Students should then draw the real-life object on the board as a silhouette, carefully and with great thought, as in crafting a letter in penmanship.

Term 2

WEEK 2 30m Art: Fast Track - Lesson 28

Drawing: Free Arm Exercises in Chalk

Materials: White chalk, chalkboard

→ PREP: WATCH SETTING UP A STILL LIFE

∞ Video Link: Setting Up a Still Life L1 L10 and L5 L26

→ WARM UP

Draw with big arm muscles on the board for three minutes. Do mass drawings of squares, circles, triangles, spirals, and trilliums.

→ PRACTICE AND DISCUSS

- Set up a still life from the everyday objects you drew last week.
- Have students draw the still life.
- Remember mass drawing. Do not draw the outlines of the objects.

WEEK 3 30m Art: Fast Track - Lesson 29

Drawing: House Plant

Materials: house plant, chalk, chalkboard

PREP: Gather a house plant for drawing.

→ RECAP

Remind students how to draw with a short piece of chalk on its side (mass or silhouette drawings).

→ WARM UP

Draw circles, squares, triangles, and spirals on the board and in various sizes using large shoulder movements for three or four minutes.

→ PRACTICE AND DISCUSS

- Observe the shapes and features of the house plant and discuss them together.
- Have students draw the overall shape of the plant in the air. Focus on the overall shape.
- Have students draw the plant on the board as a silhouette, not as an outline. Do this carefully and with much thought.
- What was noticed or discovered?

WEEK 3 30m Art: Fast Track - Lesson 30

Drawing: Animal

Materials: photos of animals, pastels, Art Book

PREP: Gather photos of a domestic animal: dog, cat, or your pet.

→ WARM UP

Draw circles, squares, triangles, and spirals on the board and in various sizes using large shoulder movements for three or four minutes.

Term 2

→ PRACTICE AND DISCUSS

- Have students choose one of the animals to draw.
- Study the animal.
- Discuss observations. Trace the animal with your finger.
- Have students draw the overall shape of the animal in the air.
- Have students draw the animal in their Art Book as a silhouette, not as an outline.
- Turn the pastel on its tip and draw the lines that make up the fur or texture.

WEEK 4 30m Art: Fast Track - Lesson 31

Drawing: Mass Drawing

 Materials: Drawing, Design, and Craft-Work, chalk (broken into smaller segments of various lengths), chalkboard

PREP: Read "Mass Drawing" and "Mass Drawing and Silhouette" p.39-40 and 42-43

→ RECAP

- What part of the body works when you are usually drawing? Students should focus on drawing from the shoulder and using big muscle movements.
- Demonstrate how to draw with a small piece of chalk turned on its side. How is the effect different from using the end of the chalk?
- What is this type of drawing called? (Mass drawing and silhouette.)

→ WARM UP

Practice figures on the chalkboard for three to five minutes.
"Plate 1" p.11

→ STUDY, NARRATE, AND DISCUSS

Figures 1-3 "Plate 2" p.15

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Mass Drawing L2 L49

→ PRACTICE AND DISCUSS

- Have students choose one figure and draw it in the air with a finger.
- Have students do a mass drawing of that figure (not an outline) on the chalkboard using the side of the chalk.
- Practice drawing the remaining figures in the same way.
- Look around your classroom and find objects that are similar to figure 1-3. Place them at eye level and draw what you see.
- Be mindful that students are studying and thinking through the objects that they are drawing.

Term 2

WEEK 4 30m Art: Fast Track - Lesson 32

Introduction to Patterns

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, manipulatives

→ WARM UP

Practice strokes and figures on the chalkboard for three to five minutes. "Plate 1" p.11

→ INTRO

A pattern is a repeated shape, color, line, etc. Example: abc abc abc abc abc OR aB aB aB aB aB. A design is usually based on a pattern. In math, a pattern is an exact repeat, but in art it is simply a repetitive design and does not need to be exact.

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Patterns L2 L50

∞ Video Link: Set Up Thumbnails for Patterns L2 L51

→ DISCUSS

Find and discuss patterns all around you. Discuss objects with a design on them; e.g., curtains, clothing, book cover, tablecloth, throw pillows, etc.

→ PRACTICE AND DISCUSS

- Give students the manipulatives and have them create their own pattern.
- Students should use these patterns and create new ones in order to make a design.
- Design is usually based on a pattern.
- Discuss patterns that you see around you.
- Discuss objects with a design on them; i.e., curtains, clothing, book cover, tablecloth, throw pillows, etc.
- Draw nine thumbnails on one page in your Art Book.
- Draw the patterns that you created with the manipulatives in one of those thumbnails. Fill the rest of your thumbnails with new patterns that you create.

★ TEACHER TIP

Students will use manipulatives to make a pattern in this lesson. Manipulatives can include Tangram pieces, beans, math counters, legos, pebbles, leaves (anything that you have enough of to repeat a pattern). This is a great lesson to complete outside with found objects

WEEK 5 30m Art: Fast Track - Lesson 33

Design: Introduction to Design and Line

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard. Gather examples of objects with a design or pattern on them to show the students.

PREP: Read "Design" p.107-109 to "in the illustrations" and p.120-125, 127-131 "Line."

→ WARM UP

★ TEACHER TIP

It is especially helpful to pre-read these sections before teaching.

Term 2

Practice strokes and shapes from p.15 on the chalkboard. Remind students how to draw with a small piece of chalk turned on its side.
"Plate 2" p.15

→ STUDY, NARRATE, AND DISCUSS

We're focusing on design for several lessons now!

- Study and discuss the gathered objects. Notice the patterns and designs.
- Talk about a toolbox. What tools are most important to have?
- Talk about line. Line is an element of design and a very important tool in our artist toolbox. It is the foundation for drawing, painting, etc.
- Discuss types of lines: zig-zag, curvy, straight, wavy, broken, thick, thin, etc.

→ PRACTICE AND DISCUSS

- Have students lay their chalk on its side and use big arm movements as they draw lines across the board.
- Put chalk on its tip and draw lines again.
- Discuss similarities/differences.
- What designs can you make with your lines?
- Spend time making designs on the board.

WEEK 5 30m Art: Fast Track - Lesson 34

Design: Fret Patterns

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, grid paper, markers or crayons

PREP: Study "Plate 63 - Fret Patterns" p.112.

→ WARM UP

Practice strokes and shapes on the chalkboard, alternating between using the tip of the chalk for lines and the side of the chalk for filled silhouettes.

"Plate 2" p.15

→ STUDY, NARRATE, AND DISCUSS

Fret Patterns

"Plate 63 - Fret Patterns" p.112

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Fret Patterns, Part 1 L2 L54

→ PRACTICE

- Create fret patterns using only straight lines and one color on grid paper.

→ SELF-EVALUATE

Compare the drawing to the picture.

★ TEACHER TIP

It's helpful to use markers or crayons for fret patterns to keep students from getting bogged down with minute details. Be sure to limit to one color at first.

Term 2

WEEK 6 □ 30m Art: Fast Track - Lesson 35

Design: Fret Patterns

□ Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, grid paper, markers or crayons

→ WARM UP

Practice strokes and shapes from Glass p.15 on the chalkboard, alternating between using the tip of the chalk for lines and the side of the chalk for filled silhouettes.

→ RECAP

Fret Patterns

"Plate 63 - Fret Patterns" p.112

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Fret patterns, Part 2 L2 L55

→ PRACTICE

- Create fret patterns using only straight lines and one color on grid paper.
- If you have time, draw fret patterns in your Art Book.

→ SELF-EVALUATE

Compare the drawing to the picture.

WEEK 6 □ 30m Art: Fast Track - Lesson 36

Design: Fret Patterns

□ Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, cardstock, markers or crayons

→ WARM UP

Practice strokes and shapes on the chalkboard, alternating between using the tip of the chalk for lines and the side of the chalk for filled silhouettes.

"Plate 2" p.15

→ RECAP

What did you learn last time?

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Fret Patterns, Part 3 L2 L56

→ PRACTICE

- Create a fret pattern frame around a sheet of cardstock. Place a quote or favorite poem in the center of the frame. Give your creation as a gift.

Term 2

→ SELF-EVALUATE

Compare the drawing to the picture.

∞ Image Link: Fret Pattern Frame Example

WEEK 7 30m Art: Fast Track - Lesson 37

Drawing: Mass Drawing

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, tea or coffee cup, and saucer

PREP: Watch tutorial

∞ Video Link: Setting Objects at Eye Level L2 L61, L3 L52, and L5 L27

→ WARM UP

Practice strokes and figures from Glass p.11 on the chalkboard for three to five minutes. Remember to place chalk on its side and fill in the entire form, not an outline.

"Plate 1" p.11

→ RECAP

What is this type of drawing called? (Mass drawing and silhouette.)

→ STUDY, NARRATE, AND DISCUSS

Figures 4-7 "Plate 2" p.15

→ PRACTICE AND DISCUSS

- Have students choose one figure and draw it in the air with a finger.
- Have students do a mass drawing of that figure (not an outline) on the chalkboard using the side of the chalk.
- Get a teacup and saucer and place them at eye level.
- Draw what you see on the chalkboard.

WEEK 7 30m Art: Fast Track - Lesson 38

Drawing: Rectangular Basket

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, basket

PREP: You will need a rectangular "egg" basket with a handle for this lesson.

→ RECAP

Discuss what we have learned thus far about how to draw.

→ WARM UP

Practice strokes and figures from the book on the chalkboard for three to five minutes.

"Plate 1" p.11

→ STUDY, NARRATE, AND DISCUSS

Figure 16 "Plate 2" p.15

★ TEACHER TIP

Remember to help students focus on drawing from the shoulder using big muscle movements.

Term 2

→ PRACTICE AND DISCUSS

- Have students draw the figure in the air with a finger.
- Have students do a mass drawing of the figure (not an outline) on the chalkboard using the side of the chalk.
- Turn the chalk on its point and add the lines for detail.
- Set up your basket at eye level.
- Students should do an observational drawing of the real-life basket on the board.
- Be mindful that students are studying and thinking through the object that they are drawing.

WEEK 8 30m Art: Fast Track - Lesson 39

Drawing: Lantern

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, lantern

PREP: Read "Cylindrical Objects" p.18.

→ WARM UP

Practice strokes and figures from Glass p.11 on the chalkboard for three to five minutes.
"Plate 1" p.11

→ STUDY, NARRATE, AND DISCUSS

Lantern "Plate 4" p.19

→ PRACTICE AND DISCUSS

- Have students draw the figure in the air with a finger.
- Have students do a mass drawing of the figure (not an outline) on the chalkboard using the side of the chalk.
- Turn the chalk on its point and add the lines for detail.
- Set up your lantern at eye level.
- Students should do an observational drawing of the real-life lantern on the board.
- Be mindful that students are studying and thinking through the object that they are drawing.
- Draw objects that are similar to the lantern in your Art Book using pastels. Make sure that you are placing the figures at eye level.

★ TEACHER TIP

You will need a lantern similar to the one on p.19, plate 4 for this lesson.

WEEK 8 30m Art: Fast Track - Lesson 40

Drawing: Introduction to Proportion

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, black construction paper, white drawing paper, scissors, glue

PREP: Read and view to assist students with lesson activities. "Tearing Shapes" p.13.

∞ Video Link: Tearing Silhouettes L2 L57

Term 2

→ WARM UP

Practice strokes and figures from Glass p.15 on the chalkboard.

"Plate 2" p.15

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Proportion L2 L58 and L3 L49

→ STUDY, NARRATE, AND DISCUSS

Discuss the design principle of proportion. Proportion is the relative size of parts within a whole. The human body is an effective example of the design principle because everything is generally in proper proportion to other parts, meaning your hands are smaller than your head, your fingertips usually fall to your mid-thigh when you are standing, and your arms are stretched at your side.

Look at Muirgil's Dream. Is the hat in proportion to the woman? What about the butterfly kite? Does the kite seem too big as well?

∞ Image Link: Muirgil's Dream

→ PRACTICE AND DISCUSS

- Choose a new figure on p.15 to study.
- Discuss observations, focusing on proportion (relative length, width, and height). Compare and contrast.
- Have students draw the figure in the air with a finger.
- Have students draw a silhouette of the figure (not an outline) on the chalkboard using the side of the chalk.
- Have students cut with scissors or tear with their hands this same figure out of black construction paper. (Remember that you are focusing on the mass form and not on the details.)
- Glue the silhouette onto a white background.
- Repeat with other figures as time allows. Be careful not to rush but to do thoughtful work.

"Plate 2" p.15

WEEK 9 30m Art: Fast Track - Lesson 41

Design: Square Patterns and Proportion

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard, 6" x 6" square piece of paper (any color)

PREP: Review tutorial on proportion from last lesson if needed.

"Proportion" p.116-117

→ RECAP

Recall and discuss proportion, design, line, and fret patterns.

→ WARM UP

Practice strokes and figures from Glass p.15 on the chalkboard for three minutes.

→ STUDY, NARRATE, AND DISCUSS

Term 2

Figures 1-10 "Plate 64" p.113

→ PRACTICE

- Have students draw Figure 6 in the air with a finger.
- Have students draw the squares in Figure 6 on the chalkboard using the side of the chalk.

→ DISCUSS

- What are all of these designs based upon? (the square in different proportions.) How are they similar? How are they different?
- Observe figures 9 and 10. How are they similar? Different?
- How are these designs similar and different from figures 1-5?

→ PRACTICE AND DISCUSS

- Create more square designs on the board. Use patterns and lines to create designs and discuss what is noticed or discovered.

WEEK 9 30m Art: Fast Track - Lesson 42

Drawing: Cylindrical and Conical Objects

 Materials: Chalk, chalkboard, cylindrical and conical objects, pastels, Art Book

PREP: Students will need three different-sized cylindrical (such as a flower vase, a soup can, a drinking glass) and conical (such as a flower pot, an umbrella, a tea pitcher, a funnel) objects to observe and draw in this lesson. Objects should be similar to Figures 9, 12, and 20.

"Plate 2" Drawing, Design, and Craft-Work, p.15

∞ Video Link: Cylindrical Objects L2 L64 and L3 L54

→ WARM UP

Practice drawing cylindrical and conical figures on the board for three or four minutes.

→ STUDY, NARRATE, AND DISCUSS

Two each of cylindrical and conical objects of different sizes.

- Place the objects at eye level.
- Discuss their proportion. How long is the top of one object in relation to the side of another?
- Focus on the straight lines when describing the objects (not the curves). You are seeing it more as a rectangle and ignoring its roundness for now.
- Ask guiding questions. At what angle does the side slant in? etc.

→ PRACTICE

- Have students draw the objects in the air.
- Have students draw the objects in their Art Book with pastels.
- Practice drawing it several times and in different sizes.

Term 2

→ DISCUSS

What did you notice while drawing the four different objects?

WEEK 10 30m Art: Fast Track - Lesson 43

Drawing: Ellipses

 Materials: Drawing, Design, and Craft-Work, circle template, hula hoop, scissors, construction paper (any color), chalk, chalkboard

PREP: The lesson requires a hula hoop or other open circle, such as an embroidery hoop, a mason jar top ring, etc. You will also need to create a circle template at least 4" in diameter for students to trace. Also, read: "Ellipses" p.14, 17-18.

→ WARM UP

Practice strokes and shapes on the chalkboard for about three minutes.
"Plate 3" p.16

→ VIEW, NARRATE, AND DISCUSS

Today, we are going to learn about ellipses. Ellipses are circles on their side.

∞ Video Link: The Ellipse Lesson L3 L51

→ PRACTICE

Demonstrate how to make an ellipse and discuss.

- Hold the hula hoop (or another open circle) directly in front of students so that they see a complete circle.
- Turn the hula hoop towards yourself and ask students to describe what they see.
- The circle no longer looks like a circle, but you know that it is still really a circle. It is not really changing shape; it only looks like it is. If the student has difficulty "seeing" this phenomenon, have him trace the circle with his finger in the air as you turn it.

→ PRACTICE

Make an ellipse with construction paper and discuss.

- Students trace the circle template on construction paper using chalk.
- Cut it out carefully so that you do not distort the circle or paper left behind (we'll refer to this part as the "frame"). We need both pieces of paper intact for this demonstration. If you must cut the "frame," then carefully tape it back together.
- Hold the frame at eye level in front of the Student.
- Place the circle inside the frame and then rotate the circle.
- What happens to the circle? It's still a circle, but what you see changes.
- Practice drawing using ellipses.

→ STUDY, NARRATE, AND DISCUSS

Look at and discuss some diagrams that illustrate the ellipse. What do

Term 2

you think these objects could be in real life? (can, coin, hula hoop)
"Plate 3" p.16

→ DISCUSS

To draw an ellipse, we need to consider what we see when we view a circle from its edge, rather than from directly overhead. From this angle, it looks like a foreshortened circle, and we draw it like an oval.

WEEK 10 30m Art: Fast Track - Lesson 44

Drawing: Can at Eye Level

 Materials: Can, pastels, Art Book, chalk, chalkboard

PREP: Students will need a can to observe in this lesson. Any canned good will do.

Read Drawing, Design, and Craft-Work, "Ellipses" and "Cylindrical Objects" p.14-18.

View the tutorial to learn how to set up the prop for the lesson.

∞ Video Link: Setting Objects at Eye Level L2 L61, L3 L52, and L5 L27

→ WARM UP

Spend about three minutes drawing horizontal and vertical ellipses on the chalkboard.

→ PRACTICE AND DISCUSS

- Set the can in front of the student below eye level. (Setting it on the table is usually enough to get it below eye level. You need to be able to see the side of the can and the top of the can.)
- Spend time studying and discussing what you see.
- Draw what you see with pastels in your Art Book. Don't forget what we've learned about drawing cylinders.
- Lay the can on its side in front of the student.
- Spend time studying and discussing what you see.
- Last time, we looked at the can standing up. How is this similar or different?
- Draw what you see with pastels in your Art Book. Don't forget what we've learned about drawing cylinders.
- Move the can so that it is farther away and then closer to you.
- Lean it up against another object so that it is at an angle.
- Prop it up slightly. What do you notice?
- Continue to draw the can in different positions as time permits.
- Tell what was noticed or discovered.

Term 2

WEEK 11 30m Art: Fast Track - Lesson 45

Drawing: Cylinders

Materials: Drawing, Design, and Craft-Work, chalk, chalkboard

PREP: Watch the cylindrical objects tutorial.

∞ Video Link: Cylindrical Objects L2 L64 and L3 L54

→ WARM UP

Draw ellipses on the board at various angles and sizes using large shoulder movements for three or four minutes.

→ PRACTICE AND DISCUSS

- Look at the cylinders at the top of "Plate 4."
 - Practice drawing them on the board using large shoulder movements until students are comfortable doing so.
 - The dotted lines that you see are the center lines for the angle of the ellipses and where the ellipse is within the cylinder. It may or may not be helpful for students to include these. Use your discretion.
 - Look around your classroom and collect similar objects. Place them below eye level. Do observational drawings of these objects.
- "Plate 4" p.19

WEEK 11 30m Art: Fast Track - Lesson 46

Drawing: Observational Drawing of Light Fixture

Materials: Pastels, Art Book

PREP: Find a place where students can sit and look up at a light fixture that is a circular structure.

→ WARM UP

Draw cylindrical and conical objects on the board at various angles and in various sizes using large shoulder movements for three or four minutes.

→ PRACTICE AND DISCUSS

- Look at a light that is overhead in your classroom.
- Using your finger, draw the light fixture in the air.
- Draw the light fixture in your Art Book using pastels.
- Remember to keep your pastel on its side and to do a mass drawing.
- After you have the overall form, go back and add details with the point of the pastel.
- Tell what was noticed or discovered.

Term 2

WEEK 12 30m Art: Fast Track - Lesson 47

Exam Week

→ EXAMS

Answer question(s) related to course.

Questions will come from:

Art Instruction: Fast-Track Course

WEEK 12 30m Art: Fast Track - Lesson 48

Exam Week

→ EXAMS

Answer question(s) related to course.

Questions will come from:

Art Instruction: Fast-Track Course

Term 3

WEEK 1 30m Art: Fast Track - Lesson 49

Brush Drawing: Vertical and Horizontal Brush-Forms, No.1 Model

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

“Elementary Brush-Forms, Vertical, and Horizontal” Brushwork No.1 Model Lesson

There are four different directions of brush-forms to learn in Hudson’s first lesson:

- Top left: down to up
- Top right: up to down
- Bottom left: right to left
- Bottom right: left to right

View the tutorials to learn how to demonstrate brush-forms to students.

∞ Video Link: Tutorial: Vertical Brush Forms L1 L26 and L3 L1

∞ Video Link: Tutorial: Vertical Brush-forms #2 L1 L27

→ RECAP

Review brush care and use.

→ INTRO

Today, we are going to learn all vertical and horizontal brush forms. We will only use one color while learning the brush-forms, so we can better evaluate our work and see progress. Use the same color as the last time we practiced brush forms.

→ PRACTICE

- Demonstrate up-to-down brush-form.
- Have students practice until they are making consistent brush-forms.
- Help them to think through the brush form in the same way that you would in Penmanship. Craftsmanship is important.
- Work through the remaining vertical and horizontal brush-forms from the Brushwork No.1 Model Lesson.

→ SELF-EVALUATE

Which brush-forms look best?

★ TEACHER TIP

Remember to keep your brushes clean and dry! And leave palettes open to dry.

WEEK 1 30m Art: Fast Track - Lesson 50

Brush Drawing: Oblique Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palette, grid paper

PREP: Read the lesson and preview the plate. We will work on oblique brush-forms. Remember, we are going for continued improvement and growth, but not perfection. Think Penmanship.

Term 3

“Oblique Brush-Forms” Brushwork Lesson 3

→ VIEW, NARRATE, AND DISCUSS

∞ Video Link: Oblique Brush Forms #1 L1 L31 and L2 L26 and L3 L2

∞ Video Link: Oblique Brush-forms #2 L1 L31

→ PRACTICE

Oblique Brush-forms from Brushwork Lesson 3

- Practice the oblique brush-forms. Oblique refers to diagonal. Brush strokes will go from “up-left to down-right” and then from “down-right to up-left.”
- Use one color. Stick with the same color for both weeks, as this makes it easier to compare progress and discern improvement.

→ SELF-EVALUATE

Which brush-forms look best?

WEEK 2

30m Art: Fast Track - Lesson 51

Brush Drawing: Pattern of Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read through lesson 4 in Elementary Brush-Forms.

→ WARM UP

Practice all directions of brush-forms.

→ PRACTICE

Design your own pattern of brush-forms. Continuous improvement and craftsmanship are what we are looking for, but not perfection.

- Look at the example in the book from “Pattern of Oblique Brush-Forms.”

Brushwork Lesson 4

- Choose a different primary color from last week, but stick with it through the entire design so that you can clearly see the improvement.
- Focus on careful construction of the brush-forms. Before beginning to make your Brush-Forms, count your squares and decide where the brush-forms will go and when they will change direction.

→ SELF-EVALUATE

Which brush-forms look best?

WEEK 2

30m Art: Fast Track - Lesson 52

Brush Drawing: Pattern of Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Look over Brushwork Lesson 5 in Elementary Brush-Forms

Term 3

→ WARM UP

Practice all directions of brush-forms.

→ PRACTICE

- Complete Brushwork Lesson 5.
- Choose a different primary color from last week, but stick with it through the entire design so that you can clearly see improvement.
- Focus on careful construction of the brush-forms. Before beginning to make your Brush-Forms, count your squares and decide where the brush-forms will go and when they will change direction.
- Continuous improvement and craftsmanship are what we are looking for, but not perfection.

→ SELF-EVALUATE

Which brush-forms look best?

WEEK 3 30m Art: Fast Track - Lesson 53

Brush Drawing: Hips and Leaves

 Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palette, grid paper

PREP: Read the lesson and preview the plate.

“Lesson on Hips and Leaves” Brushwork Lesson 6

→ WARM UP

Practice making brush-forms for three to four minutes.

→ PRACTICE

- Paint Hips and Leaves brush-forms. Remember to treat these lessons much as you do penmanship—careful craftsmanship and continual improvement.
- “Lesson on Hips and Leaves” Brushwork Lesson 6
- ∞ Image Link: Rose Hips and Leaves

→ SELF-EVALUATE

Which brush-forms look best?

WEEK 3 30m Art: Fast Track - Lesson 54

Brush Drawing: Lesson 7 Design of Rose Hips

 Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palette, grid paper

→ RECAP

Review brush care and use.

→ WARM UP

Practice making brush-forms for three to four minutes.

→ PRACTICE

Term 3

Follow the design in Lesson 7 in the book.

∞ Image Link: Rose Hips and Leaves

- Try to work as close to the graph paper as you can.
- Use one of the colors in your palette.

WEEK 4 30m Art: Fast Track - Lesson 55

Brush Drawing: Yellow Dahlia Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate. The value shift you may observe in the brush form examples in the Hudson book happens naturally. It is how the color puddles at the tip of the brush. Don't worry about adding a value change if it's not happening naturally.

"Lesson on Yellow Dahlia" Brushwork Lesson 8

→ WARM UP

Practice brush-forms.

→ PRACTICE

- Paint dahlia brush-forms. Use Hansa Yellow and mix your own green.

"Lesson on Yellow Dahlia" Brushwork Lesson 8

→ SELF-EVALUATE

Which brush-forms look best?

→ DISCUSS

What other types of flowers could you make out of these brush-forms?

WEEK 4 30m Art: Fast Track - Lesson 56

Brush Drawing: Live Yellow Dahlia

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, graph paper

→ RECAP

Review brush care and use.

→ WARM UP

Practice brush-forms.

→ PRACTICE

- Work through Lesson 9 "Design of Dahlia" in the book.

→ SELF-EVALUATE

Look at the live or photos of dahlias and compare what you see to your brush drawing.

Term 3

WEEK 5 30m Art: Fast Track - Lesson 57

Brush Drawing: Scilla Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

"Lesson on the Scylla" Brushwork Lesson 10

→ WARM UP

Practice making brush-forms.

→ PRACTICE

Scilla brush-forms. The British English spelling is Scylla, but American English spells the flower as Scilla. If you look up Scylla, you will find the Greek god. If you look up Scilla, you will find the flower.

"Lesson on the Scylla" Brushwork Lesson 10

→ SELF-EVALUATE

Which flowers and stems look best?

→ DISCUSS

What other types of flowers could you make out of these brush-forms?

• EXTRA HELPING

You can plant scilla bulbs in the autumn in zones 4-8.

WEEK 5 30m Art: Fast Track - Lesson 58

Brush Drawing: Scilla

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Consider planting Scilla bulbs in the autumn (zones 4-8).

→ RECAP

Review "Lesson on the Scylla".

"Lesson on the Scylla" Brushwork Lesson 10

→ WARM UP

Practice making brush-forms.

→ PRACTICE

- Work through Lesson 11 "Design of Scylla" in your book.

→ SELF-EVALUATE

Which flowers and stems look best?

Term 3

WEEK 6 30m Art: Fast Track - Lesson 59

Brush Drawing: Chicken Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

"Lesson on Chickens" Brushwork Lesson 12

→ WARM UP

Make brush-forms in all directions for a few minutes.

→ PRACTICE

- Make brush-forms of chicks and chickens.

"Lesson on Chickens" Brushwork Lesson 12

∞ Image Link: Chickens

→ SELF-EVALUATE

Which birds look best?

→ DISCUSS

What other types of birds could you make out of these brush-forms?

WEEK 6 30m Art: Fast Track - Lesson 60

Brush Drawing: Blue and Brown Butterflies

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper, photos of butterflies and dragonflies

PREP: Read the lesson and preview the plate.

"Lesson on Blue and Brown Butterflies" Brushwork Lesson 13

→ PRINT

∞ Image Link: Butterflies

∞ Image Link: Dragonflies

→ WARM UP

Spend three or four minutes practicing brush-forms.

→ PRACTICE

- Butterfly brush-forms. View photos of butterflies and dragonflies. Draw what you see. Try to incorporate what you noticed when practicing the brush-form figures.

"Lesson on Blue and Brown Butterflies" Brushwork Lesson 13

→ SELF-EVALUATE

Which butterflies look best?

Term 3

→ DISCUSS

How could you use brush-forms to create other insects?

WEEK 7 30m Art: Fast Track - Lesson 61

Brush Drawing: Violet Brush-Forms

 Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

"Lesson on the Violet" Brushwork Lesson 14

→ RECAP

Review brush care and use. Recall how to mix purple and green.

→ WARM UP

Practice making brush-forms in all directions for a few minutes.

→ PRACTICE

- Practice Violet brush-forms.

"Lesson on the Violet" Brushwork Lesson 14

→ SELF-EVALUATE

Which violets look best?

WEEK 7 30m Art: Fast Track - Lesson 62

Brush Drawing: 15. Design of violets

 Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, Art Book or cardstock

→ PRACTICE

Work through Lesson 15 "Design of Violets" in your book. You could do this on a piece of cardstock to write your copywork over for a nice piece of artwork to display.

WEEK 8 30m Art: Fast Track - Lesson 63

Brush Drawing: Laburnum Brush-Forms

 Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

"Lesson on Laburnum" Brushwork Lesson 16

→ PRACTICE

- Paint laburnum brush-forms. Use Hansa Yellow and mix a green with Hansa Yellow and Prussian Blue for the leaves and stems.

"Lesson on Laburnum" Brushwork Lesson 16

★ TEACHER TIP

Remember to have students clean, dry, and store brush at the end of each art lesson. Leave palette open to dry.

Term 3

→ SELF-EVALUATE

Which brush-forms look best?

→ DISCUSS

What other types of flowers could you make out of these brush-forms?

WEEK 8

30m Art: Fast Track - Lesson 64

Brush Drawing: Laburnum Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

→ PRACTICE

- Paint a design of Laburnum. Use Hansa Yellow and mix your own green.

"Design of Laburnum" Brushwork Lesson 17

→ SELF-EVALUATE

Which brush-forms look best?

→ DISCUSS

What other types of flowers could you make out of these brush-forms?

WEEK 9

30m Art: Fast Track - Lesson 65

Brush Drawing: Hares and Leaves Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

"Lesson on Hares and Leaves" Brushwork Lesson 18

→ RECAP

Review brush care and use. Recall how to mix brown.

→ PRACTICE

- Study the hare and leaf brush-forms.
- Do you remember how to make the color brown? Which two complementaries would give you the best brown for your hares? Mix your own green and brown.
- Paint hares and leaves and refer to "Lesson on Hares and Leaves" in Brushwork Lesson 18.

→ SELF-EVALUATE

Which brush-forms look best?

Term 3

WEEK 9 30m Art: Fast Track - Lesson 66

Brush Drawing: Ducklings and Pond Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

"Lesson on Ducklings and Pond" Brushwork Lesson 19

→ RECAP

Review brush care and use.

→ VIEW AND PRACTICE

Study the duck, pond, and grass brush forms.

"Lesson on Ducklings and Pond" Brushwork Lesson 19

∞ Image Link: Ducks on a Pond

- Discuss observations.
- Paint brush-forms.

→ SELF-EVALUATE

Which birds look best?

WEEK 10 30m Art: Fast Track - Lesson 67

Brush Drawing: Lesson 20 Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

Brushwork Lesson 20

→ PRACTICE

- Study the brush-forms in Lesson 20
- Discuss observations.
- Paint brush-forms.

→ SELF-EVALUATE

Which brush-forms look best?

WEEK 10 30m Art: Fast Track - Lesson 68

Brush Drawing: Lesson 21 Brush-Forms

Materials: Brushwork: Elementary Brush-Forms, brushes, water, cloth, spray bottle, watercolor palettes, grid paper

PREP: Read the lesson and preview the plate.

Brushwork Lesson 21

→ PRACTICE

- Study the brush-forms in Lesson 21
- Discuss observations.

Term 3

- Paint brush-forms.

→ SELF-EVALUATE

Which birds look best?

WEEK 11 30m Art: Fast Track - Lesson 69

Brush Drawing: Lillas Trotter

Materials: Brushes, water, cloth, spray bottle, watercolor palettes, Art Book, cardstock or watercolor paper

→ VIEW AND PRACTICE

Look at Lillas Trotter images and discuss what you see and how you could use the learned brush forms to achieve similar images.

∞ Image Link: Lillas Trotter

- Decide on an animal and greenery for your project.
- Brush draw your chosen images onto your cardstock in a way that allows you to add a quote, poem, or greeting. Continue working during the next brush drawing lesson.

★ TEACHER TIP

Students will continue working on their project in the next lesson. Remind them not to rush.

WEEK 11 30m Art: Fast Track - Lesson 70

Brush Drawing: Lillas Trotter

Materials: Brushes, water, cloth, spray bottle, watercolor palettes, Art Book, cardstock or watercolor paper, ink pen

→ RECAP

Review brush care and use.

→ PRACTICE

- Continue brush drawing like Lillas Trotter.
- After your drawing has dried completely, add text with an ink pen.
- Give to a friend or family member.

→ DISCUSS

Tell about your painting.

★ TEACHER TIP

Students may need help remembering how to mix desired colors.

WEEK 12 30m Art: Fast Track - Lesson 71

Exam Week

→ EXAMS

Answer question(s) related to course.

Questions will come from:
