How To Approach

Recap

- Take a second to recall what you read previously in the same book or topic.
- If the previous passage is difficult to remember, try looking back at any chapter/section headings or illustrations or reading the first paragraph to jog the memory.

Read

- Read the selection assigned OR read for the number of minutes allocated, leaving time for narration and mapwork. Use whichever guide (i.e., pages or minutes) works best for you. You want to read enough to be interesting, but not so much that you feel overwhelmed.
- If a book is challenging for you as a student, try stopping to narrate to yourself silently for a minute every now and then to make sure you are tracking. You might also want to read aloud to yourself. Or you might want to listen to an audiobook version of the text and read along with it.
- If a book is an easy read, enjoy the ride!
- Keep an eye out for quotes to put in your commonplace book or events or characters to put down in your Book of Centuries.

Narrate

- Process and integrate your reading by narrating either orally or in writing. Some lesson plans will give you a suggestion of how best to narrate.
- To keep yourself on track, you might want to set a timer, so you stop reading with enough time to narrate.

Connect

- After your narration, think about how what you read connects to other subjects, other books, and other things you've read, watched, or seen in the past or present.
- Share any ideas that are particularly interesting to you with your fellow classmates, teachers, parents, friends, or others. You might even want to do a bit more reading or research on something on your own time in the afternoon or evenings.

Teacher Note

These lessons are written directly to the student, but to assist them throughout the year, please read through this section and the lesson plans so you are familiar with the instructions and flow of the lessons. Accountability components are added to facilitate teacher/student discussion and growing independence.

Those educating at home might pick one or two history lessons to read aloud with their students to keep up the habit of oral narration and foster conversation and relationship, and then simply give students these lesson plans and the rest of the books and check in with them throughout the term for conversation, support, and accountability.

It is valuable for those in a classroom setting to also have a mix of lessons that students complete themselves silently and others read aloud and narrated together. Classroom settings lend

themselves well to additional discussion and sharing at the end of lessons, after everyone has narrated either together or independently in writing.

Term 1

WEEK 1 40m Canadian History: Grades 11-12 - Lesson 1

Introduction, David Thompson

 Materials: A History of Canada in Ten Maps

✕ **GATHER SUPPLIES:** You will need a notebook for Canadian history where you will be writing and drawing. We recommend dot grid and blank notebooks, but any kind will do.

PREP: Print a copy of the blank map of Canada without borders. You can use this together with your notebook to mark places and chart routes throughout this course.

∞ Map Link: Printable Map of Canada without Borders

→ INTRO

In this course, we will learn about the history of Canada between 1800-1900. The five books are intended to work together to give a chronological overview of this historical period. Two of the books - The History of Canada in Ten Maps and The Making of Canada - we are starting partway through, since the first halves were read during Rotation 2. If you did not read them during Rotation 2, you may wish to read the first halves on your own time; however, you can also start partway through without missing content for this course.

At the beginning of this century, Canada was a collection of separate British colonies and was vulnerable to invasion by the newly independent nation of the United States to the south. Yet by the end of the century, Canada was a self-governing country of seven provinces and two territories, with a transcontinental railway that stretched from coast to coast. This class will explore many of the changes that took place during this time.

→ DISCUSS

What do you remember about Canadian History before 1800? What do you already know about the period between 1800-1900? Jot down a few notes for yourself of any people, places, or events that you think might be relevant. Also, write down any questions you might have about this period of Canadian history.

→ READ

1. The Canadian Encyclopedia

As you work through the course, you should find time to fill out a History Chart for the years 1800-1900, or continue to update your Book of Centuries if you have one. The Canadian Encyclopedia is an excellent source for research and information to add to your notebooking.

∞ Article Link: David Thompson Biography

2. The History of Canada in Ten Maps

p.227-236 "In the dead of winter" - "until the twentieth century."

→ NARRATE

Narrate in a way that helps you interact with the ideas in the reading. For some, that might be narrating orally or silently to yourself, in writing, by drawing a map, a diagram or a picture, writing a diary/letter from the point of view of one of the characters, describing what happened, or writing a bulleted list of points and questions. For others, it might be helpful to make marks in the book as you read and then narrate as you look at what you marked in the chapter. Experiment and see what works well for you, and you can vary your approach week to week. Also, strive to make connections to ideas, events, and people you have come across in previous readings you have done.

→ DISCUSS

• EXTRA HELPING

If you would like to watch a linear, narrative recounting of the historical events of 1800-1900 to supplement your studies this term, look for episodes of CBC's Canada: A People's History (2000-2001) at your local library or online. The following episodes cover the period of our history rotation this year:

Episode 5: A Question of Loyalties (1775-1815)

Episode 6: The Pathfinders (1670-1850)

Episode 7: Rebellion and Reform (1815-1850)

Episode 8: The Great Enterprise (1850-1867)

Episode 9: From Sea to Sea (1867-1873)

Episode 10: Taking the West (1873-1896)

Most lessons will include optional questions for further discussion, written response, or reflection.

- What made David Thompson such a successful cartographer and explorer? How much was his own skill, and how much was it his willingness to heed and learn from indigenous assistance, knowledge, and practices?
- Why was David Thompson's work so important for fur trading companies and the government?

→ ANNOTATE

As your ability to read higher-level books in high school grows, it is helpful to learn new ways to interact with the text while you are reading to help you grasp what the author is saying. Non-fiction books are usually good candidates for annotating while you read. Maybe you want to underline the main ideas or interesting points. Maybe you want to put a question mark in the margin if something is unclear. Think about how to help yourself engage with the information in the book to make it your own. Experiment with different ways to do that. Some students do best by recording themselves talking about the reading, while others may need to discuss the material with another person. Whatever you do, your annotations should help you to further solidify the main points or ideas in your mind. Write down any questions, comments, or connections that arise from your review of your annotations after reading. Try different ways and discuss your observations about what works well and what doesn't with your teacher.

Explore ways that might be most helpful for you as you read each week. Advances in technology make many more annotation options available to serve us and our various ways of processing. Some might do great with a pencil and a book, while others might benefit from colors, Post-its, or speech-to-text options.

Linked are two documents to give you some more ideas for what it means to annotate a text. Charlotte Mason talked about ways to use books in School Education on p.180-181 if you are interested in reading her words on the topic, too.

Today's reading and the next are shorter to allow you time to read the documents and practice annotating. For today, if you are new to this, start simply by putting a mark in the margin or a Post-it flag when you come across a main idea or an important point the author is making. For others who have been doing this already, see what new ways you might want to experiment with this term.

The War of 1812: Charles de Salaberry

Materials: The Making of Canada

→ INTRO

The Making of Canada is a collection of biographical vignettes that will introduce you to largely forgotten historical figures who were nevertheless vital to significant events in Canada's history. You will read this book alongside A History of Canada in Ten Maps to build a chronological view of this historical period.

→ READ & ANNOTATE

p.148-158 "Almost thirty years after" - "what they achieved at Châteauguay."

→ NARRATE

Choose the best way for you to narrate what you read.

→ DISCUSS

- The War of 1812 is usually synonymous with the battles near Upper Canada that occurred in 1812, especially the Battle of Queenston Heights, where Sir Isaac Brock was killed. Why was Lower Canada a more strategically critical region to protect, according to Koabel? And why might French Canadians have been hesitant at first to help defend it? What changed?
- Why was the Battle at Châteauguay a distinctly Canadian episode of the War of 1812? What are some of the possible reasons why it is not commemorated by English-speaking or French-speaking Canadians today?

p.262-278 "In the eighteenth century" - "British Columbia remained British."

→ NARRATE

Choose the best way for you to narrate what you read.

→ DISCUSS

- Explain why the discovery of gold in the Fraser Valley instigated such a diplomatic crisis for James Douglas. How would you describe him as a leader? What strategies did he use to ensure British Columbia remained British?
- Based on the situation in British Columbia, can you identify some larger issues that might have spurred politicians to push for Confederation over the following decade? How would you describe the relationship between British North America and the United States as it unfolded in this one location?
- Koabel states that "the instability and disorder of 1858 pushed Douglas and Begbie to weave the infrastructure of a proper colony out of whole cloth. In this, they were largely successful" (278). What do you think he means by this? Consider that to "weave something out of whole cloth" means a fabrication or a creation of something with little basis in reality.

WEEK 1 30m Canadian History: Grades 11-12 - Lesson 26

George Taylor Denison

Materials: The Making of Canada

→ RECAP

What do you recall about James Douglas's role in the history of British Columbia from the last reading?

→ READ & ANNOTATE

p.279-291 "Canadians learned early on" - "the North-West Territory."

→ NARRATE

Choose the best way for you to narrate what you read.

→ DISCUSS

- Why is George Taylor Denison III a notable "example of the lengths to which Canadian anti-Americanism can extend" (279)? How did Denison's anti-Americanism lead him to support a side in the Civil War whose cause was in opposition to the widely-held values of British North America?
- Why were some hoping to expand the American Civil War into an Anglo-American War? What strategies did they use, and what were the motivations behind them?
- What did you learn from this chapter about the relationship between Canada and the United States in the years leading up to Confederation? How were the conferences in Charlottetown and Quebec City very different reactions to the same concerns that caused Denison to undertake the Georgian scheme?

Examination

Term 1

- (The History of Canada in Ten Maps) Adam Shoalts writes that "Explorers might make the first maps, but the final ones are usually made by armies." How is this statement true for the War of 1812? Are there other events from history where this perspective holds true?
OR Explain why the British navy turned its attention to the Arctic after the end of the Napoleonic Wars. What were its aims there? What role did the unknown regions of the Arctic play in the nineteenth-century view of the world?
- (The Making of Canada): Describe the role either Cuthbert Grant or James Sinclair played in the identity of the Métis Nation.
OR Define the two sides of the debate between Mary Ann Shadd and the Bibbs over the Refugee Home Society, and between Shadd and Frederick Douglass over the issue of emigration.

Term 2

- (The Making of Canada) Koabel highlights several instances where Canada has been the site of an intended or actual invasion or conflict meant to incite a larger battle (such as an Anglo-American war), or a change elsewhere in the world (such as the Fenian goal for an Irish uprising). Describe and compare two or more examples of these conflicts and consider what role they played, if any, in encouraging British North American colonies to join in Confederation.
OR
(The Unweaving) Describe the Red River Settlement, its variety of inhabitants, and the Métis way of life based on what you have read in the novel so far.
- (How Different It Was) Compare life today in your region of Canada to what life was like in that region in the nineteenth century.
OR
Imagine you have just arrived at a piece of uncleared prairie land that you have acquired and hope to farm. What are your priorities? What do you need to provide for yourself and your family immediately? How will you accomplish these tasks?

Term 3

- (How Different It Was and Early Voices) Choose one reading from Early Voices and compare it to the historical survey of nineteenth-century Canadian society from How Different It Was. In what ways does the individual's account illustrate the elements of Canadian society that Goodspeed describes? Are there ways that it complicates or challenges Goodspeed's bird's-eye view of society as a whole?
OR
Choose two or more readings from Early Voices and compare the women's experiences of life in nineteenth-century Canada. What were their circumstances? What challenges did they face? What would they talk about if they could meet each other in person? You can write this as a creative dialogue if you prefer.
- (The Unweaving) Why did Cheryl Parisien choose The Unweaving as the title of the book? Consider all the mentions of weaving, sewing, other fabric arts, and the symbolism of the Métis sash (called the "saencheur flayshii," or arrow belt). Include references to specific events in the novel.
OR
Describe all you remember about the circumstances that led to the Red River Resistance of 1869, and its outcome, based on the events of the novel. You can write this as a historical report or from the perspective of one of the characters in the novel. You can be creative and write it as a letter, an interview, or another form of your choosing.
