# Dictation: Grade 8

## How To Teach

### Prepare

Select a passage that has already been read and narrated. (We provide passages in the Dictation packets.) Have students read it over and select 5-6 words that they don't know. They can also mark punctuation that may be difficult to remember. They only need to select a section that contains 5-6 new words. If this is only a couple of sentences, that is fine.

### Discuss

Ask students which words they think will be most difficult to spell and why. If there is a common spelling pattern, you can point that out. You can also point out other words that have a similar pattern.

### Practice

Have students visualize the words by "seeing" them with their eyes closed. They should also practice on a whiteboard.

### Complete

As part of the same lesson, when students feel ready, slowly call out a paragraph from what they studied. You will want to read it phrase by phrase and not repeat it.

### View

When finished, have students look over their own work to check and see that everything looks right. If you see any misspelled words, erase those and have the students practice those again.

## Term 1

### WEEK 1

#### 15m Dictation: Grade 8 - Lesson 1

Tracker: ☐ ☐

☐ Materials: Grade 8 Student packet of copywork and dictation passages

##### → DICTATION

Two Dictation lessons are scheduled each week. In each lesson, there should be time for studying (10 minutes) and time for the sentences to be dictated (5 minutes). You can use this week's suggested passage for the lessons and/or choose your own generally from the history, literature, or geography books the student has already read during the week. The suggested passage might take one lesson to learn, or it might take both lessons to learn. It will be different for each student. Be sure to pay attention to any added notes regarding grammar or punctuation in the student dictation packet for the week.

The student should study enough text to include 5-6 unknown words. This might mean that the student is only studying a couple of sentences. A student may benefit more by preparing alone (practicing words and self-checking), or he/she may need heavier support by talking through the words. The student should work on visualizing each word until they can see it with their eyes shut, and then practice writing the word, drawing the letters in the air, or saying the letters aloud until it is memorized.

Discuss any interesting spelling patterns or punctuation from the text being studied. The process should take around 10 minutes to this point.

Then choose a sentence or two to slowly dictate a few words at a time to the student from the text studied. Read it once. Correct any errors and revisit any words missed.

Be sure to adapt the amount studied and dictated to suit the student. Add to or subtract from the amount or difficulty of the text studied to ensure the student's success and growth.
