About the Course

This course includes the following topic(s): Playground Games, Sports, Free Play/ Circuits, Historic Dancing

About Playground Games
Play group playground games.

About Sports
This year, students will learn how to play football, badminton, and softball through participating in a variety of games, skills, and activities. Activities are geared for smaller groups of students but can be adjusted to any size.

About Free Play/ Circuits
Make fitness-building routines a habit.

About Historic Dancing
Students will learn dances that were popular in the historical period being studied and perform them to some music of that period.

PE: Grades 7-12
Lessons specifically created for Grades 7-12. We do recommend you prioritize the Historical Dance lessons as these are less likely to be obtained elsewhere and also give depth and richness to student's understanding of the time period. We recommend you make sure to include some sort of physical activity as breaks throughout your school day. If you already have sports or similar activities as a regular part of your life rhythms, these lessons are optional.

Placement & Combining Tips

Playground Games
Suitable for interested younger students.

Sports
Minimal supplies are required.

Free Play/ Circuits
Students may also choose to take a local Pilates or Yoga class.

Historic Dancing
This course is suitable for interested students in Grades 5-6 if combining.

How To Teach

Overview

Mason emphasized that being physically fit is just as important as being mentally and spiritually fit. She used a combination of Swedish Drill (calisthenic exercises done to music or military-style commands), playground games, sports, dance, free play, and afternoon walks to make sure students had time for vigorous exercise every single day.

Introduce

Teach students the new song, dance, or sport. Tutorials are often provided.

Practice

Play your new game, practice your new dance, sing your new rhyme, etc.!

Term 1

WEEK 1 20m Playground Games - Lesson 1

Movement Skills

Materials: The Ultimate Homeschool P.E. Game Book

PREP: Read "Games for Enhancing Movement Skills" p.144. Make sure the student knows how to gallop, skip, etc.

→ PLAY

Little Brown Bear or Martian p.144-145

• Afternoon Extension (Optional)
May play games during free play time during the term.

WEEK 1 20m Free Play/ Circuits - Lesson 1

Materials: 303 Tween-approved Exercises + Active Games, a pair of light weights or cans

PREP: Go through the exercises with your student so they know what to do and can use the correct form.

→ NOTE

There is one assigned circuit routine per week. One week will be upper body and the next week will be lower body. The same circuits will be repeated for about 3 weeks. Feel free to do the circuits more than once a week. They can be done every day if you are alternating muscles you are using. Feel free to change up the exercises or add in more. If you have a group you can all do the same exercises together or have stations that everyone goes to and then rotates to the next station. You can also put a cardio exercise in between the station such as jump roping or running in place or jumping on a small trampoline.

→ EXERCISE

Circuit 1: Upper Body Training

1. Warm-Up Activity (5 min)
(Pick an activity from p.24-25)

2. Stretching Exercises (5 min)
(Pick 3 stretches from p.26-31)

3. Circuit Exercises (Do this set 3 times through)
• Crossover Abs (#54) 5x each side
• Ball Twists (#55) 5x each side
• Close the Door (#90) 10x
• Push and touch (#91) 10x
• Bent-Over Circular Rows (10x)

4. Add some kind of cardio exercise or sports game at some point throughout the day. There are many ideas in the book.

WEEK 1 20m Historic Dancing - Lesson 1

Sir Roger de Coverley

PREP: Watch instructional video to familiarize yourself with dance. Print Sir Roger de Coverley Instructions PDF.

→ INTRO

Sir Roger de Coverley is an English Country Dance originally published in The Dancing Master in 1695. It was widely danced in the 1700s and remained popular through the 1800s. It is most famously found in Charles Dickens's A Christmas Carol, at Fezziwig's ball. It is a finishing dance that was commonly danced at the end of a ball, where all attendees partnered up to close out the evening. It promoted good humor among the company and caused them all to leave having great satisfaction with one another. After the dance crossed the ocean and came over to America, it morphed into different variations and also became what we now know as the Virginia Reel. You will recognize the structure and formations as they have similarities.

→ **INTRO**
Capoeira History: "Capoeira is a Brazilian art form that developed from combat games enslaved Africans brought to Brazil during the colonial period. It features dance, martial arts, music, songs, acrobatics, and, many would say, a particular philosophy. In performance practitioners form a circle ("roda") where eight of them play instruments creating a groove that supports songs and the physical action. Songs are in Portuguese and the instruments are all percussion, with the exception of the berimbau, three musical bows that lead the musical ensemble. Players take turns to come to the center of the circle in couples for the physical action. These physical encounters are known as jogos (games), neither a dance, nor a combat. During the performance, sometimes players seem to be dancing and other times to be fighting. This ambiguity is integral to capoeira and practitioners strive to balance the two. With a legacy linked to resistance and liberation from Portuguese colonizers and enslavers, many practitioners nowadays see capoeira as a symbol of cultural resistance and an instrument to educate and raise awareness about racial inequality. These views have been multiplied since the 1980s when capoeira became globalized." - Mestre Cobra Mansa (recognized Capoeira Angola master based in Brazil)

∞ Music Link: Warm Up Music (begin at 08:34 - 17:03)

Capoeira is performed as an improvisational, non-choreographed duel between two people in a "roda" (circle) where they escape movement without touch or resistance. At the cue of the lead instrument (the berimbau), the two players begin by shaking hands or sharing a hug to show respect and affirm the "fight" is a friendly game. Movements are spontaneous without a fixed pattern, and a movement dialogue is created. Though Capoeira is not performed like a set, memorized dance, for educational purposes, we have put together the steps we have learned into a dance. As you become familiar with some of the steps, you may pair up with classmates and slowly and carefully practice these moves spontaneously in pairs at your own timing. Remember, you are not trying to hurt your partner but create a dialogue of movement where one seeks to outmaneuver the other. Movements should be executed with care and control. If you want to explore Capoeira further, seek out in-person lessons in your area.

The Lancers Quadrille (5th set, Les Lanciers)

→ **PREP**

Watch instructional video to familiarize yourself with dance. Print or have a digital copy of The Lancers Quadrille PDF while teaching dance.

→ **INTRO**

The Lancer's Quadrille is a set of 5 dances: La Dorset, La Lodoiska, La Native, Les Graces, and Les Lanciers, originally published in 1817 by John Duval. The quadrille was first derived from French military parades, where four mounted horsemen would make square formations. Further influence came from French Country Dances or Cotillion dances popular at the time. (Remember, we learned a Cotillion dance last year, George Washington's Favourite!) The quadrille first appeared as the quadrille de contredanse in late 18th-century France but really became popular once reaching English ballrooms and International high society in 1815. The quadrille is made up of 8 dancers, 4 couples facing into the center of the square. When you heard "square," did anyone think of square dancing? If so, you were correct! The quadrille is one of the primary historical predecessors of the American square dance. Today, we will begin learning Les Lanciers, the final movement of the Lancer's Quadrille.
