→ CULTURAL TOPIC - Nopales for Cooking

In Mexican culture, "picando nopales" (dicing cactus pads) represents far more than a culinary step. The prickly pear cactus (nopal) is a profound symbol of resilience and indigenous heritage. It thrives in harsh, arid landscapes and has sustained Mesoamerican communities for thousands of years.

∞ Video Link: This is a [video](#) of a grandma showing how she prepares the nopales she harvests from her home. Remember to have your settings on Spanish to English translation of captions.
