

Sloyd

Level 5

About the Course

Complete assigned models, focusing on craftsmanship. Students work with cardboard to create 3-dimensional geometric shapes.

Placement & Combining Tips

Grade 6 students who are new to sloyd should begin with Sloyd: Level 1 and then continue courses in sequence.

Prerequisite: Sloyd: Level 4

Scheduling

GRADE	SCHEDULE INFO.	BOOKS
6+	Sloyd: Level 5 1 time/week 30 min	Sloyd

Sloyd: Level 5

- ☐ View the "Sloyd Introduction Video" for an overview of materials and resources used in Sloyd.
- ☐ View "Level 5 Sloyd Explained" tutorial in Lesson 1 to get an overview of how levels five and six sloyd lessons should work.
- ☐ Purchase supplies and introduce students to their Sloyd tools (discuss their care and safe use). Organize them so they are easily accessible.
- ☐ Allow time for loading and viewing videos if available. We recommend teachers preview tutorials and work a model before teaching it.

- ☐ Gather supplies for the lessons as listed in the materials list of each day's lesson plans.

Sloyd: Level 5

How To Teach

	Overview Lessons will go much more smoothly if you prepare thoroughly. As students gain experience, develop fine motor skills, and practice habits of precision they will need less support.
	Prepare Watch video tutorials or make the model yourself. Gather supplies and materials needed.
	Recap Connect back to previous lesson and skills learned.
	Read Read the instructions one step at a time. Model each step and make sure students complete it with precision before moving to the next step.
	Practice When a project is complete, students may repeat it as many times as they wish to give as gifts or create original patterns similar to the project.

Term 1

WEEK 1 30m Sloyd: Level 5 - Lesson 1

Cardboard Work Model 1 Cube

 Materials: Sloyd by Schwartz, paper, chipboard, ruler, pencil, scissors, tape, awl, bone (optional), X-Acto knife, compass

→ READ

Read Part II. Card-board Work on p.27-29 to get a short overview of expectations for level 5 Sloyd. The concepts are the same as paper sloyd in earlier levels, though the problems to solve become slightly more challenging, as does the media used to build the models. Watch the tutorial to understand how the lessons should work.

Video Link: Level 5 Sloyd Explained

→ VIEW

Photo of the model and tutorial. Visualize the steps to work the model.

∞ Image & Video Link: Cube

→ PRACTICE

Work on the model. Create first on paper then transfer to cardboard.

Read and demonstrate instructions one step at a time.

Cardboard Work: 3-D Geometric Shapes "No. 1: Cube" p.29-32.

Find a creative way to use your finished model.

WEEK 2 30m Sloyd: Level 5 - Lesson 2

Cardboard Work Model 1 Cube

 Materials: Sloyd by Schwartz, paper, chipboard, ruler, pencil, scissors, tape, awl, bone (optional), X-Acto knife, compass

→ READ
