

Mathematics

Geometry
Algebra 1

About the Course

This course includes the following topic(s): Algebra 1: Part 2, Geometry: Grade 9

About Algebra 1: Part 2

Following Mason's example, students alternate lessons in Algebra and Geometry.

Mathematics: Grade 9

Students should look ahead to college math requirements at schools they may want to attend or majors they may plan to pursue and plan accordingly. It is important to work at a student's pace. Alveary pacing has students study geometry and algebra concurrently in 9th and 10th grade and then finish Algebra II/Trig during 11th grade. Students can then start precalculus in 11th grade and finish 12th grade with precalculus or calculus.

Placement & Combining Tips

Algebra 1: Part 2

Students should have facility with arithmetic.

Scheduling

GRADE	SCHEDULE INFO.	BOOKS
9	Algebra 1: Part 2 2 times/week 40 min	Elementary Algebra Student Book Elementary Algebra Teacher Guide (Revised Edition)

Algebra 1: Part 2

☐ Work through your Algebra book 2 days/week at your own pace, aiming to finish these chapters:

Term 1: Ch.9-11

Term 2: Ch.12-14

Complete the odd answers to questions in Set 1 and every other answer in Set 2 of each chapter.

Geometry: Part 1

☐ Work through your Geometry book 3 days/week at your own pace, aiming to finish 40-50% of the book over the year.

☐ If you are using Geometry: A Guided Inquiry with Math Without Borders and you have any questions, don't hesitate to contact David Chandler, the author of the Math Without Borders Guide.
